Trespassers? Willow Lung-Amam,2017-05-16 Beyond the gilded gates of Google little has been written about the suburban communities of Silicon Valley Over the past several decades the region s booming tech economy spurred rapid population growth increased racial diversity and prompted an influx of immigration especially among highly skilled and educated migrants from China Taiwan and India At the same time the response to these newcomers among long time neighbors and city officials revealed complex attitudes in even the most well heeled and diverse communities Trespassers takes an intimate look at the everyday life and politics inside Silicon Valley against a backdrop of these dramatic demographic shifts At the broadest level it raises questions about the rights of diverse populations to their own piece of the suburban American Dream It follows one community over several decades as it transforms from a sleepy rural town to a global gateway and one of the nation s largest Asian American majority cities There it highlights the passionate efforts of Asian Americans to make Silicon Valley their home by investing in local schools neighborhoods and shopping centers It also provides a textured tale of the tensions that emerge over this suburb s changing environment With vivid storytelling Trespassers uncovers suburbia as an increasingly important place for immigrants and minorities to register their claims for equality and inclusion

An Anatomy of Sprawl Nicholas A. Phelps,2013-03-01 Despite the combined efforts of British planners politicians the public and interest groups the Solent City stands as one of a number of instances of a peculiar instance of urban sprawl muted and slow to emerge yet produced paradoxically by very strong interests in promoting conservation and restraint This unique and valuable case study while focusing on the planning and development of South Hampshire in particular enables an in depth study of the issues surrounding planning strategies with regards to growing populations
