**TMS 2015 144th Annual Meeting & Exhibition, Annual Meeting Supplemental Proceedings** The Minerals, Metals & Materials Society (TMS), 2016-12-20 *Towards Sustainable Food Production in Africa* Morris Fanadzo, Nothando Dunjana, Hupenyu Allan Mupambwa, Ernest Dube, 2023-07-10 This edited book is focused on Sustainable Development Goal 2 It offers a comprehensive and topical collection of practices technologies and innovations in the field of sustainable food production and security under a changing climate It is a one stop handbook

for farmers researchers extensionists policy makers and other stakeholders seeking to identify and disseminate best fit technologies for local and regional landscapes It offers an understanding of the challenges risks and uncertainties as well as opportunities to foster productive and sustainable food production Smallholder farming and agriculture in general is facing a serious threat from climate change that has resulted in erratic and unpredictable rainfall and increased temperatures among other abiotic stresses These climate change induced pressures have reduced productivity mainly among the smallholder farmers who are critical in driving the attainment of sustainable development goals like SDG 2 12 and 13 The objective of the book is to document effective and practicable practices and technologies that can be adopted by smallholder African farmers as mitigation measures against the effects of climate change This book is of interest to researchers agricultural scientists climate change scientists capacity builders and policymakers

**Measuring and Implementing Altmetrics in Library and Information Science Research** Baskaran, C.,2020-01-17 Researchers are becoming increasingly concerned with tracking the impact and reach that their research has on the academic community Through the implementation of altmetrics they can now better measure the value that their research has through the analysis of citing behavior and citation based research evaluation Measuring and Implementing Altmetrics in Library and Information Science Research is a critical research book that focuses on how altmetrics can help researchers to uncover evidence of societal engagement influence and broader impacts that demonstrate the value of their research It builds a more complete picture of the visibility and profile of individual researchers and observes real time social media updates that provide insight into how faculty s research is being shared from the moment it is published Featuring a range of topics such as citations big data and social media this book is essential for researchers educators librarians professionals academicians administrators and students

**Faith, Race and Inequality amongst Young Adults in South Africa** Nadine Bowers Du Toit ,2022 For many young South African adults often called born frees who were born just before or just after the demise of political apartheid the ongoing realities of poverty and inequality bring to light the question of whether they truly are free in contemporary South Africa Their lived experiences of poverty and inequality seem to be in conflict with theologically laden concepts that remain prominent in social and political life such as reconciliation forgiveness justice and restitution This leads to a bi directional process of contesting and being contested by such notions and discourses Furthermore in light of the double legacy of both the church and youth as resisting injustice this publication seeks to explore the many perspectives from which the Christian faith race and inequality amongst youth can be brought to light

Engineering Design and Mathematical Modelling Nnamdi Nwulu,Mammo Muchie,2020-12-17 Engineering Design and Mathematical Modelling Concepts and Applications consists of chapters that span the Engineering design and mathematical modelling domains Engineering design and mathematical modelling are key tools techniques in the Science Technology and Innovation spheres Whilst engineering design is concerned with the creation of functional innovative products and processes mathematical modelling seeks to utilize mathematical

principles and concepts to describe and control real world phenomena Both of these can be useful tools for spurring and hastening progress in developing countries They are also areas where Africa needs to skill up in order to build a technological base The chapters in this book cover the relevant research trends in the fields of both engineering design and mathematical modelling This book was originally published as a special issue of the African Journal of Science Technology Innovation and Development
