great power confrontation that all great powers are engaged in one way or another in such actions and thus contextualisation is important and that Russia's subversive activity was often exaggerated even misrepresented Responses potentially amplified the elements of subversion represented by the original threat Threats exist but responses always need to be calibrated so as not to inflict self harm on the integrity of liberal democracy itself This book will be of great interest to students scholars and academics of international relations comparative politics security and defence studies global governance and Russian politics as well as politicians political advisers NGOs diplomats and journalists American Book Publishing Record Cumulative, 1876-1949 R.R.
