Issues in Materials Development Maryam Azarnoosh, Mitra Zeraatpishe, Akram Faravani, Hamid Reza Kargozari, 2016-03-22 Issues in Materials Development provides readers with theoretical foundations and practical aspects of designing materials for EFL/ESL contexts. It starts with discussing some basic and preliminary principles of materials design followed by scrutinizing critical issues in materials development in an objective and systematic way. This ranges from considering learners' needs, adopting selection and gradation of materials to the specific focus of the book on developing various types of materials for the four language skills: pronunciation, ESP vocabulary, and computer-assisted language learning materials. Authenticity of materials to be designed and the inclusion of affective factors to develop motivating materials to engage language learners in addition to features of materials design at a universal level are other areas to read about. This book finally tries to open new horizons and possible futuristic approaches to improve today's ELT materials.

Developing Materials for Language Teaching Brian Tomlinson, 2023-08-24 Viewing current developments in materials development through the eyes of developers, users, and researchers from all over the world, this book applies principles to practice. It provides a comprehensive coverage of the main aspects and issues in the field as well as critical overviews of recent developments in materials development and acts as a stimulus for innovation. Now revised and updated to take account of developments over the last decade, this 3rd edition features 8 new chapters covering materials use, blended learning, multimodality, intercultural competence, communicative competence, the practical realisation of theoretical principles in the development of digital materials, the teaching of right-to-left languages, and the commodification of grammar. Fully updated chapters with contemporary examples and considering teaching second and foreign languages other than English. New pedagogical resources with the addition of tasks and further readings for each chapter. New online resources. 2 new chapters on producing videos on teacher development courses and materials development on teacher training courses and 2 updated chapters on development courses for teachers and simulations in teacher development alongside a range of additional tasks and further reading suggestions.
