New Jersey Register ,2014-04 Just Hierarchy Daniel A. Bell,2022-05-10 A trenchant defense of hierarchy in different spheres of our lives from the personal to the political All complex and large scale societies are organized along certain hierarchies but the concept of hierarchy has become almost taboo in the modern world Just Hierarchy contends that this stigma is a mistake In fact as Daniel Bell and Wang Pei show it is neither possible nor advisable to do away with social hierarchies Drawing their arguments from Chinese thought and culture as well as other philosophies and traditions Bell and Wang ask which forms of hierarchy are justified and how these can serve morally desirable goals They look at ways of promoting just forms of hierarchy while minimizing the influence of unjust ones such as those based on race sex or caste Which hierarchical relations are morally justified and why Bell and Wang argue that it depends on the nature of the social relation and context Different hierarchical principles ought to govern different kinds of social relations what justifies hierarchy among intimates is different from what justifies hierarchy among citizens countries humans and animals and humans and intelligent machines Morally justified hierarchies can and should govern different spheres of our social lives though these will be very different from the unjust hierarchies that have governed us in the past A vigorous systematic defense of hierarchy in the modern world Just Hierarchy examines how hierarchical social relations can have a useful purpose not only in personal domains but also in larger political realms *Adverse Impact Analysis* Scott B. Morris,Eric M. Dunleavy,2016-12-01 Compliance with federal equal employment opportunity regulations including civil rights laws and affirmative action requirements requires collection and analysis of data on disparities in employment outcomes often referred to as adverse impact While most human resources HR practitioners are familiar with basic adverse impact analysis the courts and regulatory agencies are increasingly relying on more sophisticated methods to assess disparities Employment data are often complicated and can include a broad array of employment actions e g selection pay promotion termination as well as data that span multiple protected groups settings and points in time In the era of big data the HR analyst often has access to larger and more complex data sets relevant to employment disparities Consequently an informed HR practitioner needs a richer understanding of the issues and methods for conducting disparity analyses This book brings together the diverse literature on disparity analysis spanning work from statistics industrial organizational psychology human resource management labor economics and law to provide a comprehensive and integrated summary of current best practices in the field Throughout the description of methods is grounded in the legal context and current trends in employment litigation and the practices of federal regulatory agencies The book provides guidance on all phases of disparity analysis including How to structure diverse and complex employment data for disparity analysis How to conduct both basic and advanced statistical analyses on employment outcomes related to employee selection promotion compensation termination and other employment outcomes How to interpret results in terms of both practical and statistical significance Common practical challenges and

pitfalls in disparity analysis and strategies to deal with these issues Human Resource Management Elizabeth D. Fredericksen, Stephanie L. Witt, W. David Patton, Nicholas P. Lovrich, 2015-09-16 Sound HRM practices matter they are a sine qua non of effective governance in democratic government equally so at the local regional state and national levels of government The NASPAA Network of Schools of Public Policy Affairs and Administration accreditation standards demand critical competencies for public managers that are vital to human resource managers and supervisors at all levels These competencies include skills to lead and manage in public governance to participate in and contribute to the policy process to analyze synthesize think critically solve problems and make decisions to articulate and apply a public service perspective and to communicate and interact productively with a diverse and changing workforce and citizenry This second edition of Human Resource Management is designed specifically with these competencies in mind to Introduce and explore the fundamental purposes of human resource management in the public service and consider the techniques used to accomplish these purposes Provide exercises to give students practice for their skills after being introduced to the theory foundation and practices of public and nonprofit sector HRM Facilitate instruction of the material by introducing important topics and issues with readings drawn from the professional literature Provide information and examples demonstrating the interrelatedness of many of the topics in public sector HRM and the trends shaping public and nonprofit management especially diversity ethics and technology Demonstrate and describe differences among HRM practices in public for profit and nonprofit organizations and between the levels of government Human Resource Management is organized to provide a thorough discussion of the subject matter with extensive references to relevant literature and useful teaching tools Thus students will consider the issues purposes and techniques of HRM and conceptualize how varied their roles are or will be whether a personnel specialist in a centralized system or a supervisor managing in one of the increasingly common decentralized systems Each chapter includes a thorough review of the principles and practices of HRM including the why and the how selected readings important themes diverse examples key terms study questions applied exercises case studies and examples of forms and processes would be managers will encounter in their roles **Teaching Reading and Writing Beyond High-stakes**

Research Methods in Human Resource Management Eugene F. Stone-Romero, Patrick J. Rosopa, 2020-05-01 Empirical research in HRM has focused on such issues as recruiting testing selection training motivation compensation and employee well being A review of the literature on these and other topics suggests that less than optimal methods have often been used in many HRM studies Among the methods related problems are using a measures or manipulations that have little or no construct validity b

samples of units e g participants organizations that bear little or no correspondence to target populations c research designs that have little or no potential for supporting valid causal inferences d samples that are too small to provide for adequate statistical power and e data analytic strategies that are inappropriate for the issues addressed by a study As a result our understanding of various HRM phenomena has suffered and improved methods may serve to enhance both the science and practice of HRM In view of the above the purpose of this volume of Research in Human Resource Management is to provide basic and applied researchers with resources that will enable them to improve the internal validity external validity construct validity and statistical conclusion validity of research in HRM and the related fields of industrial and organizational psychology and organizational behavior Sound research in these fields should serve to improve both science and practice With respect to science support for a theory hinges on the validity of research used to support it In addition the results of valid research are essential for the development and implementation of HRM policies and practices In the interest of promoting valid research based inferences in HRM research the chapters in this volume identify a wide range of methods related problems and offer recommendations for dealing with them Chapters in it address such HRM research related topics as neglected research issues causal inferences in research heteroscedasticity in research range restriction in research interrater agreement indices and construct validity issues in measures of such constructs as job performance organizational politics and safety climate
