**Turvey, Rosario Adapon, Kurissery,
Sreekumari**

2014 November Economics Paperzimsec:

War by Other Means Robert D. Blackwill, Jennifer M. Harris, 2016-04-11 A Foreign Affairs Best Book of 2016 Today nations increasingly carry out geopolitical combat through economic means Policies governing everything from trade and investment to energy and exchange rates are wielded as tools to win diplomatic allies punish adversaries and coerce those in between Not so in the United States however America still too often reaches for the gun over the purse to advance its interests abroad The result is a playing field sharply tilting against the United States Geoeconomics the use of economic instruments to advance foreign policy goals has long been a staple of great power politics In this impressive policy manifesto Blackwill and Harris argue that in recent decades the United States has tended to neglect this form of statecraft while China Russia and other illiberal states have increasingly employed it to Washington s disadvantage G John Ikenberry Foreign Affairs A readable and lucid primer The book defines the extensive topic and opens readers eyes to its prevalence throughout history Presidential candidates who care more about protecting American interests would be wise to heed the advice of War by Other Means and take our geoeconomic toolkit more seriously Jordan Schneider Weekly Standard

Innovation, Regional Integration, and Development in Africa Samuel Ojo Oloruntoba, Mammo Muchie, 2018-07-26 This edited volume discusses the role of innovation and regional integration in economic development in Africa Over the past five decades post colonial African countries have struggled to break loose from the trap of poverty and underdevelopment through the adoption of various development strategies at regional national and continental levels However the results of both national and regional efforts at advancing development on the continent have been mixed Although the importance of agglomeration and fusion of institutions have long been recognized as possible path to achieving economic development in Africa the approach to regionalism has been unduly focused on market integration while neglecting other dimensions such as social policy mobility of labor educational policy biotechnology regional legislation manufacturing innovation and science and technology This volume investigates the link between innovation regional integration and development in Africa arguing that the immediate and long term development of Africa lies not just in the structural transformation of its economies but in the advancement of scientific and innovation capacities The book is divided into four parts Part I addresses the theoretical and conceptual underpinnings of innovation and regional integration in Africa Part II presents case studies which examine how regional economic institutions are fostering innovation in Africa Part III of the book deals with sectoral issues on innovation and integrated development in Africa Part IV sets the future research on innovation regional integration and development in Africa Combining theoretical analysis and a comparative interdisciplinary approach this volume is appropriate for researchers and students interested in economic development political economy African studies international relations agricultural science and geography as well as policymakers in regional economic communities and the African Union

Economics and Political Implications of International Financial Reporting Standards Uchenna, Efobi, Nnadi,

Matthias,Tanna, Sailesh,Iyoha, Francis,2016-03-08 International Financial Reporting Standards IFRS are internationally recognized financial reporting guidelines regulated by the International Accounting Standards Board IASB to ensure that uniformity exists in the global financial system In addition to regulating financial reporting the adoption of IRFS has been shown to impact the flow of foreign capital and trade Economics and Political Implications of International Financial Reporting Standards focuses on the consequences and determinants of the adoption of the International Financial Reporting Standard IFRS which has remained a top issue in International Accounting This timely publication brings to the forefront issues related to the political and economic influences and impacts of IFRS in addition to providing a platform for further research in this area Policy makers academics researchers graduate level students and professionals across the fields of management economics finance international relations and political science will find this publication pertinent to furthering their understanding of financial reporting at the global level **Making Politics in Zimbabwe's Second Republic** Gorden Moyo,Kirk Helliker,2023-05-16 The book provides a fresh and innovative interpretation of the new government of Zimbabwe led by Emmerson Mnangagwa which emerged in late 2017 after the downfall of Robert Mugabe It demonstrates the contradictory character of the Mnangagwa government involving both continuities and discontinuities in relation to Mugabe s regime The temptation amongst Zimbabwean scholars has been to focus on the continuities and to dismiss the significance of any discontinuities notably reform measures This book adopts an alternative approach by identifying and focusing specifically on the existence of a formative project of the Mnangagwa s Second Republic further analysing its political significance as well as risks and limitations While doing so the book covers topics such as reform measures reconciliation transitional justice corruption the media agriculture devolution and the debt crisis as well as health and education Discussing the limitations of these different reform measures the book highlights that any scholarly failure to identify the risks of the project leads to an incomplete understanding of what constitutes the Mnangagwa s Second Republic The book appeals to students scholars and researchers of Zimbabwean and African studies political science and international relations as well as policymakers interested in a better understanding of political reform processes *Intellectual, Scientific, and Educational Influences on Sustainability Research* Turvey, Rosario Adapon,Kurissery, Sreekumari,2019-06-28 Over the last few decades the new discipline of sustainability science SS has evolved with a phenomenal rise in knowledge production research and publications as well as the development of new academic programs and creation of centers and scientific communities networks and organizations With pressing global environmental issues in the 21st century SS has become an influential discipline and important subject of intellectual inquiry that deserves support from the academy and scientific communities worldwide to find solutions to global problems such as climate change environmental degradation and biodiversity loss Intellectual Scientific and Educational Influences on Sustainability Research is a concise and authoritative book that fills the crucial and unmet need for educational materials that integrates theoretical foundations methodological basis and practice in

the science of sustainability The goal of the book is to increase accessibility and use of educational and scientific knowledge among academic and non academic audiences as it assembles the wisdom and insights from up to date scholarship and advances in this new discipline Highlighting various topics such as biodiversity public transportation and human development it is ideal for environmentalists ecologists technology developers policymakers academicians researchers and students *Grid-locked African Economic Sovereignty* Warikandwa, Tapiwa Victor,Nhemachena, Artwell,2019-02-06 The emergent so called Fourth Industrial Revolution is regarded by some as a panacea for bringing about development to Africans This book dismisses this flawed reasoning Surfacing how investors are actually looting and plundering Africa how the industrial internet of things the gig economies digital economies and cryptocurrencies breach African political and economic sovereignty the book pioneers what can be called anticipatory economics which anticipate the future of economies It is argued that the future of Africans does not necessarily require degrowth postgrowth postdevelopment postcapitalism or sharing solidarity economies it requires attention to age old questions about African ownership and control of their resources Investors have to invest in ensuring that Africans own and control their resources Further it is pointed out that the historical imperial structural creation of forced labour is increasingly morphing into what we call the structural creation of forced leisure which is no less lethal for Africans Because both the structural creation of forced labour and the structural creation of forced leisure are undergirded by transnational neo imperial plunder theft robbery looting and dispossession of Africans this book goes beyond the simplistic arguments that Euro America developed due to the industrial revolutions **Developing Knowledge Societies for Distinct Country Contexts** Lopes, Nuno Vasco,Baguma, Rehema,2020-12-18 Through knowledge societies people have capabilities to acquire information and to transform that information into knowledge and information which empowers them to enhance their lives and to contribute to the social economic development The practical application of knowledge into innovation and how this process from research to development to application can be achieved is a domain that is not yet very well understood *Developing Knowledge Societies for Distinct Country Contexts* is an essential reference source that documents methods best practices and case studies for the development of global knowledge societies at the national regional and local levels Featuring empirical analysis on topics such as smart governance financial literacy and globalization this book is ideally designed for business strategists economists international researchers anthropologists politicians policymakers governmental sectors academics and students seeking coverage on the development of knowledge society policies and strategies in various areas of the world **Food Systems Profile - Zimbabwe** Food and Agriculture Organization of the United Nations,2022-08-03 Food systems are intimately linked to our lives through the food we eat our nutrition and health our livelihoods jobs and the environment and natural resources of the planet The main challenge for food systems is to produce nutritious food for all while preserving our biodiversity and environment and ensuring equitable distribution of wealth This Food Systems Profile provides a summary of the main food system issues in Zimbabwe and

highlights potential solutions for their sustainable and inclusive transformation It is the result of a systemic analysis and stakeholders consultation that was part of a global assessment of food systems in over 50 countries following a joint initiative by the EU FAO and CIRAD which aims at catalyzing the sustainable and inclusive transformation of food systems

Constitutionalism and the Economy in Africa Charles M. Fombad, Nico Steytler, 2022-11-14 Despite expectations that the celebrated second wave of constitutional democracy in the 1990s would facilitate economic development Africa remains the continent with the highest level of poverty in the world The fight against poverty hinges on a vibrant economy that creates jobs and income by generating enough revenue to enable the state to take pro development measures However instead of the economic benefits that were supposed to accrue from the constitutional reforms of the last three decades including entrenching a market economy African economies remain weak a situation that has been aggravated by the COVID 19 pandemic By focusing on the relationship between constitutionalism and economic growth in Africa this volume addresses five questions 1 In the constitutional reforms of the 1990s and thereafter did constitutions also reflect the shift towards a market economy and if so in what manner 2 Given that agriculture and extractive industries are the main sources of state revenue in many African economies how are matters of land and other natural resources dealt with constitutionally 3 Where the market economy is captured in a constitution what is the state s relationship to that economy interventionist or laissez faire or somewhere in between Have constitutions also established a social state that provides its citizens with the basic elements of a dignified life 4 In the process of constitution making and implementation concerning the economy what impact has globalization had on constitutionalism and economic growth in Africa 5 Finally how has the relationship between constitutionalism and economic growth played out in practice Is there a symbiotic relationship Has constitutionalism led or may do so to greater economic prosperity *Constitutionalism and the Economy in Africa* offers a range of comprehensive arguments and case studies that will be of interest and use to academics post graduate students judges lawyers economists and policy makers involved in the economic role of the State the impact of globalization and the constitutional foundations for land and natural resources exploitation

Legal Protection of Foreign Direct Investment. A Critical Assessment with Focus on South Africa and Zimbabwe Talkmore Chidede, 2016-09 This study undertakes a critical assessment of the legal protection of foreign direct investments FDI in South Africa and Zimbabwe by determining their compliance with the international minimum standards norms and or best practices on the legal protection of FDI by host states Firstly the study argues that foreign investment is much needed in South Africa and Zimbabwe to improve economic growth and development to create jobs and to increase their competitiveness However these benefits are not accrued automatically but rather host states need to create an enabling environment to receive such benefits Thus host states need to put an investment scheme into operation to guarantee the legal protection of foreign investments South Africa and Zimbabwe have at large crafted and implemented investment laws and related policies which tend to be hostile towards foreign investments Therefore similar investment laws

and related policies in both jurisdictions are analysed This study will also offer recommendations for a legal investment which is not only flexible friendly and favourable to foreign investment in South Africa and Zimbabwe but also advances their local economic policies

If you ally infatuation such a referred **2014 November Economics Paperzimsec** books that will present you worth, get the utterly best seller from us currently from several preferred authors.
