

6. Take a detective's notebook sheet. Fold it in half (so no one can see the notes you make) and check off the cards that are in your hand, if you wish.

7. Miss Scarlet always goes first. Play then proceeds, in turn, to the first player's left.

Gameplay

Moving Your Character Pawn.

On each turn, try to reach a different Room in the mansion. To start your turn, move your character pawn either by rolling the dice or, if you're in a corner Room, using a Secret Passage. Here's how:

Rolling

Roll the dice and move your character pawn the number of squares you rolled.

- You may move horizontally or vertically, forward or backward, but not diagonally.
- You may change directions as many times as your roll will allow. You may not, however, enter the same square twice on the same turn.
- You may not enter or land on a square that's already occupied by another Suspect.

Secret Passages

The Rooms in opposite corners of the mansion are connected by Secret Passages. If you're in one of these Rooms at the start of your turn, you may, if you wish, use a Secret Passage instead of rolling. To move through a Secret Passage, announce that you wish to do so, and then move your character pawn to the Room in the opposite corner.

Entering and Leaving a Room

You may enter or leave a Room either by rolling the dice and moving through a door, or by moving through a Secret Passage.

- A door is the opening in the wall, not the space in front of the doorway. When you pass through a door, do not count the doorway itself as a space.
- You may not pass through a door that's blocked by an opponent's character pawn.
- As soon as you enter a Room, stop moving. It doesn't matter if you roll a number that's higher than you need to enter.
- You may not re-enter the same Room on a single turn.
- It is possible that your opponents might block any and all doors and trap you in a Room. If this happens, you must wait for someone to move and unblock a door so you can leave!

Making a Suggestion

As soon as you enter a Room, make a Suggestion. By making Suggestions throughout the game, you try to determine—by process of elimination—which three cards are in the Confidential Case File envelope. To make a Suggestion, move a Suspect and a Weapon into the Room that you just entered. Then suggest that the crime was committed in that Room, by that Suspect, with that Weapon.

Example: Let's say that you're Miss Scarlet and you enter the Lounge. First move another Suspect—Mr. Green, for instance—into the Lounge. Then move a Weapon—the Wrench, perhaps—into the Lounge. Then say "I suggest the crime was committed in the Lounge by Mr. Green with the Wrench."

Remember three things:

- You must be in the Room that you mention in your Suggestion.
- Be sure to consider all character pawns—including spare Suspects and including yourself—as falling under equal suspicion.
- There is no limit to the number of Suspects or Weapons that may be in one Room at one time.

Proving a Suggestion True or False

As soon as you make a Suggestion, your opponents, in turn, try to prove it false. The first to try is the player to your immediate left. That player looks at his or her cards to see if one of the three cards you just named is there. If the player does have one of the cards named, he or she must show it to you and no one else. If the player has more than one of the cards named, he or she selects just one to show you. If that opponent has none of the cards that you named, then the chance to prove your Suggestion false passes, in turn, to the next player on the left.

As soon as one opponent shows you one of the cards that you named, it is proof that this card cannot be in the envelope. End your turn by checking off this card in your notebook. (Some players find it helpful to mark the initials of the player who showed the card.) If no one is able to prove your Suggestion false, you may either end your turn or make an Accusation now. (See Making an Accusation section for details.)
