However, the flourishing role of the private sector in security over the last twenty years has brought this into question. In this book Deborah Avant examines the privatization of security and its impact on the control of force. She describes the growth of private security companies, explains how the industry works and describes its range of customers including states, non-government organisations and commercial transnational corporations. She charts the inevitable trade-offs that the market for force imposes on the states, firms and people wishing to control it, suggests a new
