Rumble, 2012 Essays bring out the important and complex roles played by Anglo Saxon churchmen including Bede and lesser known figures Both episcopal and abbatial authority were of fundamental importance to the development of the Christian church in Anglo Saxon England Bishops and heads of monastic houses were invested with a variety of types of power and

influence Their actions decisions and writings could change not only their own institutions but also the national church while their interaction with the king and his court affected wider contemporary society Theories of ecclesiastical leadership were expounded in contemporary texts and documents But how far did image or ideal reflect reality How much room was there for individuals to use their office to promote new ideas The papers in this volume illustrate the important roles played by individual leading ecclesiastics in England both within the church and in the wider political sphere from the late seventh to the mid eleventh century The undeniable authority of Bede and Bishop thelwald is demonstrated but also the influence of less familiar figures such as Bishop Wulfsig of Sherborne Archbishop Ecgberht of York and St Leoba The book draws on both textual and material evidence to show the influence by both deed and reputation of powerful personalities not only on the developing institutions of the English church but also on the secular politics of their time Contributors Alexander R Rumble Nicholas J Higham Martyn J Ryan Cassandra Rhodes Allan Scott McKinley Dominik Wassenhoven Gale R Owen Crocker Debby Banham Joyce Hill
