Storytelling the Bible at the Creation Museum, Ark Encounter, and Museum of the Bible Paul Thomas, 2020-04-16 Paul Thomas chronicles a multi level reception study of the Bible at both the Creation Museum and the Ark Encounter in Kentucky USA Thomas explores the commercial presentation of biblical narratives and the reception of those narratives by the patrons of each attraction focusing upon three topics what do young Creationists believe how they interpret their beliefs from the Bible and what is the user experience at the museums The volume begins by explaining how Answers in Genesis AiG use Bible passages to support young Earth creationist arguments allowing for the chance to consider the Bible via physical means Thomas then examines how the Creation Museum and the Ark Encounter visitors receive the Bible as presented by AiG and how this presentation informs visitors understanding of the text exploring concepts such as the most prominent displays of the two attractions the larger context of museums and theme parks and the case studies of the Methuselah display and The Noah Interview He concludes with the summary of the user experience generated by the attractions analyzing the degree to which patrons accept negotiate or resist the interpretation of the Bible offered by AiG

Controversy of the Ages Theodore Cabal, Peter Rasor, II, 2018-08-08 *Controversy of the Ages* carefully analyzes the debate by giving it perspective Rather than offering arguments for or against a particular viewpoint on the age of the earth the authors take a step back in order to put the debate in historical and theological context The authors of this book demonstrate from the history of theology and science controversy that believers are entitled to differ over this issue while still taking a stand against theistic evolution But by carefully and constructively breaking down the controversy bit by bit

they show why the age issue is the wrong place to draw a line in the sand *Righting America at the Creation Museum* Susan L. Trollinger, William Vance Trollinger, 2016-05-15 In *Righting America at the Creation Museum* Susan L. Trollinger and William Vance Trollinger Jr take readers on a fascinating tour of the museum. The Trollingers vividly describe and analyze its vast array of exhibits, placards, dioramas, and videos from the Culture in Crisis Room where videos depict sinful characters watching pornography or considering abortion to the National Selection Room where placards argue that natural selection doesn't lead to evolution. The book also traces the rise of creationism and the history of fundamentalism in America. *The Secret in the Backpack* Sharon Zoller, 2025-09-02 Has your faith in God been damaged by what you've been taught in science? In *The Secret in the Backpack* author Sharon Zoller presents information to breathe new life into your faith, demonstrating that school textbooks don't reflect the current scientific information. She discusses the spiritual and cultural consequences of being taught the world is a product of atheistic evolution and she reveals eleven topics from public school science texts that try to support that atheistic evolutionary view. These topics include peer-reviewed articles, rock, sedimentary rock, coal, whales, dinosaurs, similar DNA, developmental similarities, structural similarities, evolution, and natural selection, and fossils and transitional forms. Each quote from the textbook is followed by a section rich in gold nugget quotes from today's top scientists like Stephen Meyer, Michael Behe, and James Tour. **Biology** John Moore, 2004-08 *Teacher Manual for Biology A Search for Order in Complexity* *Four Views on Creation, Evolution, and Intelligent Design* Zondervan, 2017-11-21 Evolution or the broader topic of origins has enormous relevance to how we understand the Christian faith and how we interpret Scripture. *Four Views on Creation, Evolution, and Intelligent Design* presents the current state of the conversation about origins among evangelicals, representing four key positions: Young Earth Creationism, Ken Ham, Answers in Genesis, Old Earth Progressive Creationism, Hugh Ross, Reasons to Believe, Evolutionary Creation, Deborah B. Haarsma, BioLogos, Intelligent Design, Stephen C. Meyer, The Discovery Institute. The contributors offer their best defense of their position, addressing questions such as: What is your position on origins, understood broadly to include the physical universe, life, and human beings in particular? What do you take to be the most persuasive arguments in defense of your position? How do you demarcate and correlate evidence about origins from current science and from divine revelation? What hinges on answering these questions correctly? This book allows each contributor to not only present the case for his or her view but also to critique and respond to the critiques of the other contributors, allowing you to compare their beliefs in an open forum setting to see where they overlap and where they differ. *Adam to Abraham* Robin Sampson, 2003-06 This multilevel K-12 Bible-focused unit study utilizes the Charlotte-Mason approach and the Internet. The first eleven chapters describe Creation, the Fall, the Flood, and the origin of nations. Genesis 12:50 is the ancestral story. Traditions of the Bible James L. KUGEL,James L Kugel,2009-06-30 James Kugel s *The Bible As It Was* 1997 has been welcomed with universal praise Here now is the full scholarly edition of this wonderfully rich and illuminating work expanding the author s findings into an incomparable reference work Focusing on two dozen core stories in the Pentateuch from the Creation and Tree of Knowledge through the Exodus from Egypt and journey to the Promised Land James Kugel shows us how the earliest interpreters of the scriptures radically transformed the Bible and made it into the book that has come down to us today Kugel explains how and why the writers of this formative age of interpretation roughly 200 B C E to 150 C E assumed such a significant role Mining their writings including the Dead Sea Scrolls works of Philo and Josephus and letters of the Apostle Paul and writings of the Apostolic Fathers and the rabbinic Sages he quotes for us the seminal passages that uncover this crucial interpretive process For this full scale reference work Kugel has added a substantial treasury of sources and passages for each of the 24 Bible stories It will serve as a unique guide and sourcebook for biblical interpretation

Modern Moralities Harold Lerch,2022-08-01 Has the media influenced morality changing from what God ordained in the beginning We are being taught that homosexuality is acceptable that killing of a fetus is not murder the Bible is a collection of myths the creation account is impossible that the notion the earth is only 6

500 years old is laughable we evolved from lesser apes and were not created there was no world wide flood the story of Sodom and Gomorrah being destroyed by brimstone is a myth the Exodus of the Jews from Egypt never happened the Ark of the Covenant is supposedly some magic box that made the walls of Jericho fall impossible King David and his son King Solomon never existed Jesus was not resurrected from the dead Mary Magdalene was a prostitute Jesus and Mary Magdalene had a child this child and Jesus s bloodline are the holy grail and Mary Magdalene was the beloved disciple These are either from ignorance or are willing lies to pry us from our beliefs The Bible is still fact **The Gospel of Climate Skepticism**

Robin Globus Veldman, 2019-10-22 Why are white evangelicals the most skeptical major religious group in America regarding climate change Previous scholarship has pointed to cognitive factors such as conservative politics anti science attitudes aversion to big government and theology Drawing on qualitative fieldwork The Gospel of Climate Skepticism reveals the extent to which climate skepticism and anti environmentalism have in fact become embedded in the social world of many conservative evangelicals Rejecting the common assumption that evangelicals skepticism is simply a side effect of political or theological conservatism the book further shows that between 2006 and 2015 leaders and pundits associated with the Christian Right widely promoted skepticism as the biblical position on climate change The Gospel of Climate Skepticism offers a compelling portrait of how during a critical period of recent history political and religious interests intersected to prevent evangelicals from offering a unified voice in support of legislative action to address climate change
