Landscapes of Collectivity in the Life Sciences Snait B. Gissis, Ehud Lamm, Ayelet Shavit, 2018-01-12 Broad perspective on collectivity in the life sciences from microorganisms to human consensus and the theoretical and empirical opportunities and challenges Many researchers and scholars in the life sciences have become increasingly critical of the traditional methodological focus on the individual This volume counters such methodological individualism by exploring recent and influential work in the life sciences that utilizes notions of collectivity sociality rich interactions and emergent phenomena as essential explanatory tools to handle numerous persistent scientific questions in the life sciences The contributors consider case studies of collectivity that range from microorganisms to human consensus discussing theoretical and empirical challenges and the innovative methods and solutions scientists have devised The contributors offer historical philosophical and biological perspectives on collectivity and describe collective phenomena seen in insects the immune system communication and human collectivity with examples ranging from cooperative transport in the longhorn crazy ant to the evolution of autobiographical memory They examine ways of explaining collectivity including case studies and modeling approaches and explore collectivity s explanatory power They present a comprehensive look at a

specific case of collectivity the Holobiont notion the idea of a multi species collective a host and diverse microorganisms and the hologenome theory which posits that the holobiont and its hologenome are a unit of adaption The volume concludes with reflections on the work of the late physicist Eshel Ben Jacob pioneer in the study of collective phenomena in living systems Contributors Oren Bader John Beatty Dinah R Davison Daniel Dor Ofer Feinerman Raghavendra Gadagkar Scott F Gilbert Snait B Gissis Deborah M Gordon James Griesemer Zachariah I Grochau Wright Erik R Hanschen Eva Jablonka Mohit Kumar Jolly Anat Kolombus Ehud Lamm Herbert Levine Arnon Levy Xue Fei Li Elisabeth A Lloyd Yael Lubin Eva Maria Luef Ehud Meron Richard E Michod Samir Okasha Simone Pika Joan Roughgarden Eugene Rosenberg Ayelet Shavit Yael Silver Alfred I Tauber Ilana Zilber Rosenberg Pharmaceutical Care in Digital Revolution Ardalan Mirzaei, Claudia Rijcken, 2023-08-18

Pharmaceutical Care in the Digital Revolution Blending Digital with Human Innovation Second Edition provides readers with an updated view on how to use technology to improve pharmaceutical care PC and enhance drug outcomes with digital tools Organized into four parts including Global Healthcare Systems Under Pressure Digital Advances to Innovate Pharmaceutical Care Journeys Conditions to Drive Combinatoric Pharma Digital Innovation and What to do Tomorrow as a Pharmaceutical Care Leader the book further examines digital developments that will optimize the PC process and prepare stakeholders for a dynamic future that will optimize the life of patients against a sustainable cost model This edition also discusses recent advances in the digital health arena that will change the way we approach healthcare and prevention while also providing interactive links to lectures and technologies tutorials on how to implement advances in your own working environment and examples of pharmacists who are successful in building synergy between digital and pharma Teachers readers about new advances in digital health technology Provides updated insights on future pharmaceutical care and how to implement essential conditions to create the best outlook for patients Includes updated access links and QR codes as educational material for the book IBPS Clerk 8 Year-wise Preliminary & Mains Solved Papers (2011-18) Disha Experts, 2019-07-02

Investigative and Predictive DNA Testing Hirak Ranjan Dash, 2025-11-01

Investigative and Predictive DNA Testing delves into the cutting edge of DNA analysis presenting a comprehensive guide that unlocks the potential of DNA in solving complex cases This book stands as a vital resource for students practitioners and researchers in fields such as biology zoology medicine anthropology microbiology and genetics Designed for those with a basic understanding of biological sciences it is particularly beneficial for graduate post graduate and research level students The book explores the evolution of DNA analysis focusing on predictive methods and investigative leads such as ancestry lineage and phenotype Each chapter contributed by internationally renowned experts highlights the transformative role of artificial intelligence and machine learning in enhancing the accuracy and utility of DNA analysis The book is comprised of various sections starting with fundamental concepts of investigative and predictive DNA analysis followed by technological advancements in the field and concluding with the challenges and future concerns of DNA analysis It serves as an indispensable tool for anyone looking to expand their knowledge and skills in DNA analysis making it a must read for the scientific community Simplifies complex concepts in DNA analysis making them accessible to readers with a basic biological science background including students and professionals in fields including biology zoology medicine anthropology and microbiology Showcases the integration of AI and machine learning in DNA analysis emphasizing how these technologies

enhance accuracy and efficiency Presents information with clarity and precision using visual aids and real time images to facilitate understanding and engagement for readers at various levels of expertise Serves as a comprehensive reference on the technological advancements in DNA fingerprinting and predictive analysis for undergraduate and post graduate students as well as researchers

Decolonizing the Diet Gideon Mailer,Nicola Hale,2018-03-22 Decolonizing the Diet challenges the common claim that Native American communities were decimated after 1492 because they lived in Virgin Soils that were biologically distinct from those in the Old World Comparing the European transition from Paleolithic hunting and gathering with Native American subsistence strategies before and after 1492 the book offers a new way of understanding the link between biology ecology and history Synthesizing the latest work in the science of nutrition immunity and evolutionary genetics with cutting edge scholarship on the history of indigenous North America Decolonizing the Diet highlights a fundamental model of human demographic destruction human populations have been able to recover from mass epidemics within a century whatever their genetic heritage They fail to recover from epidemics when their ability to hunt gather and farm nutritionally dense plants and animals is diminished by war colonization and cultural destruction The history of Native America before and after 1492 clearly shows that biological immunity is contingent on historical context not least in relation to the protection or destruction of long evolved nutritional building blocks that underlie human immunity Instant

Insights: Improving water management in crop cultivation Dr Amir Haghverdi,Dr Brian G. Leib,Susan A. O'Shaughnessy,Dr Manuel A. Andrade,Q. Xue,J. Rudd,J. Bell,T. Marek,S. Liu,D. S. Gaydon,Dr Robert C. Schwartz,Dr Kevin McInnes,Dr Dana Porter,2021-12-21 This specially curated collection features five reviews of current and key research on improving water management in crop cultivation The first chapter focuses on site specific variable rate irrigation systems utilised across agriculture and examines site specific data acquisition and mining approaches such as soil mapping and zone delineation The second chapter considers the main deficit irrigation strategies used in agriculture to improve crop water productivity It also explores the status of site specific irrigation management and its role in minimizing agricultural water use The third chapter reviews progress in winter wheat water management and water use efficiency WUE drawing on long term field experiments in the U S southern Great Plains It discusses the key relationships between yield evapotranspiration WUE and best management practices The fourth chapter considers the key techniques for improving rice water productivity through enhanced irrigation practices aiming to reduce irrigation water use in rice cultivation such as the Alternate Wetting and Drying technique The final chapter examines the main irrigation methods used in dryland sorghum production It also reviews the relationship between soil properties and irrigation management

Nonvitamin and Nonmineral Nutritional Supplements Seyed Mohammad Nabavi,Ana Teresa Sanches Silva,2018-09-28 Nonvitamin and Nonmineral Nutritional Supplements compiles comprehensive information and recent findings on supplements found in today s market The book focuses on non essential nutrients animal extracts yeast and fungi extracts and plant and algae extracts used as supplements

Readers will find valuable insights on the impact of dietary supplementation on human health along with an understanding of the positive and negative aspects of each supplement Provides reliable information on available supplements to inform nutritional practices Presents each supplement s sources availability health benefits drawbacks and possible interactions with other supplements food or drugs Serves as a guide to non essential nutrients plant and algae extracts animal extracts including bee products and shark cartilage and supplements from yeast and fungi Current Status and Trends in Urban Agriculture Thomas Henry Whitlow,Yoshiki Harada,Zhongqi Cheng,Gaston Small,2022-03-31

Decoding **2015 Supplemental Life Sciences Papers**: Revealing the Captivating Potential of Verbal Expression

In a period characterized by interconnectedness and an insatiable thirst for knowledge, the captivating potential of verbal expression has emerged as a formidable force. Its capability to evoke sentiments, stimulate introspection, and incite profound transformations is genuinely awe-inspiring. Within the pages of "**2015 Supplemental Life Sciences Papers**," a mesmerizing literary creation penned by way of a celebrated wordsmith, readers attempt an enlightening odyssey, unraveling the intricate significance of language and its enduring effect on our lives. In this appraisal, we shall explore the book's central themes, evaluate its distinctive writing style, and gauge its pervasive influence on the hearts and minds of its readership.
