Bankruptcy Litigation Manual, 2015-2016 Edition By Michael L. Cook, 2015-11-11 Every step in the business bankruptcy litigation process is covered in Aspen Publishers and Bankruptcy Litigation Manual from the drafting of the first pleadings through the appellate process. In fact, by making the Bankruptcy Litigation Manual a part of your working library, you not only get detailed coverage of virtually all the topics and issues you must consider in any bankruptcy case, you also get field-tested answers to questions you confront every day, such as: How to stay continuing litigation against a corporate debtor and its non-debtor officers? What are the limits on suing a bankruptcy trustee? Is the Deprizio Doctrine still alive? Does an individual debtor have an absolute right to convert a case from Chapter 7 to Chapter 13? What prohibitions exist on cross-collateralization in financing disputes? Are option contracts and executory contracts enforceable for bankruptcy purposes? When and under what circumstances may a bankruptcy court enjoin an administrative proceeding against a Chapter 11 debtor? What are the current standards for administrative priority claims? When must a creditor assert its setoff rights? When can a remand order issued by a district court be reviewed by a court of appeals? What are the limits on challenging pre-bankruptcy real property mortgage foreclosures as fraudulent transfers? Can an unsecured lender recover contract-based legal fees incurred in post-bankruptcy litigation on issues of bankruptcy law? Is there a uniform federal limitation on perfecting security interests that primes a longer applicable state law period, thus subjecting lenders to a preference attack? Do prior bankruptcy court orders bar a plaintiff's later state court suit and warrant removal of the action in federal court? Michael L. Cook, a partner at Schulte Roth and Zabel LLP in New York and former long-time Adjunct Professor at New York University School of Law, has gathered together some of the country's top bankruptcy litigators to contribute to Bankruptcy Litigation Manual. Learning and E learning International Academic Conference on Management Economics and Marketing International Academic Conference on Transport Logistics Tourism and Sport Science *A Nervous State* Nancy Rose Hunt, 2015-12-30

In *A Nervous State* Nancy Rose Hunt considers the afterlives of violence and harm in King Leopold's Congo Free State. Discarding catastrophe as narrative form, she instead brings alive a history of colonial nervousness. This mood suffused medical investigations, security operations, and vernacular healing movements. With a heuristic of two colonial states, one nervous, one biopolitical, the analysis alternates between medical research into birthrates, gonorrhea, and childlessness and the securitization of subaltern therapeutic insurgencies. By the time of Belgian Congo's famed postwar developmentalist schemes, a shining infertility clinic stood near a bleak penal colony, both sited where a notorious Leopoldian rubber company once enabled rape and mutilation. Hunt's history bursts with layers of perceptibility and song, conveying everyday surfaces and daydreams of subalterns and colonials alike. Congolese endured and evaded forced labor and medical and security screening. Quick-witted, they stirred unease through healing, wonder, memory, and dance. This capacious medical history sheds light on Congolese sexual and musical economies, on practices of distraction, urbanity, and hedonism. Drawing on theoretical concepts from Georges Canguilhem, Georges Balandier, and Gaston Bachelard, Hunt provides a bold new framework for teasing out the complexities of colonial history.

Startups and Gazelle Enterprises Salvatore Loprevite, Stefano Marasca, Domenico Nicolò, Marcantonio Ruisi, Claudio Teodori, 2025-08-16. Policymakers and scholars have shown growing interest in startups, particularly in recent years of economic crisis, as nations seek to rebuild their economies and foster employment through entrepreneurship and innovation. Many new businesses fail in their early stages due to insufficient access to the financial and managerial resources needed to sustain their expansion. Only a few survivors experience substantial growth and contribute significantly to job creation: the so-called Gazelle enterprises. This book delves into this evolving field of research, featuring contributions from Italian scholars affiliated with the Startup Study Group of SIDREA, the Italian Society of Accounting and Business Administration. The authors examine the key factors that influence the success or failure of startups, with a focus on identifying enterprises with a high probability of survival and growth. The volume also explores related topics such as sustainability, performance measurement, and valuation of startups. Designed to bridge theory and practice, this book is a valuable resource for academics and finance professionals alike, offering insights into the best practices and strategies that drive successful startups.
