HCI for Children with Disabilities Josefina Guerrero-Garcia, Juan Manuel González-Calleros, Jaime Muñoz-Arteaga, César A. Collazos, 2017-05-03 In this book the authors present an HCI principle based approach to develop applications to assist children with disabilities Design knowledge related to developing complex solution for this audience is explained from an interaction design point of view Different methodologies models and cases studies are covered with the aim of helping practitioners to adopt any of the proposed techniques presented in this book HCI methodologies that adopt an agile strategy are presented including novel techniques at different development steps such as board games agile planning agile implementation method engineering As this is a huge research field the authors do not just focus on a specific disability but test their methods in different contexts with excellent results Readers of this book will find both a well organized and structured set of methodologies and also material that has been tested and refined throughout years of research Using detailed case studies the reader is guided towards specific solutions which will also provide insights into how to address related problems

Eyetracking and Applied Linguistics Silvia Hansen-Schirra , Sambor Grucza , 2016-11-25 Eyetracking has become a powerful tool in scientific research and has finally found its way into disciplines such as applied linguistics and translation studies paving the way for new insights and challenges in these fields The aim of the first International Conference on Eyetracking and Applied Linguistics ICEAL was to bring together researchers who use eyetracking to empirically answer their research questions It was intended to bridge the gaps between applied linguistics translation studies cognitive science and computational linguistics on the one hand and to further encourage innovative research methodologies and data triangulation on the other hand These challenges are also addressed in this proceedings volume While the studies described in the volume deal with a wide range of topics they all agree on eyetracking as an appropriate methodology in empirical research

needed on climate change and world leaders agree Yet climate issues barely trouble domestic politics This book explores a central dilemma of the climate crisis science demands urgency politics turns the other cheek Is it possible to hope for a democratic solution to climate change Based on interviews with leading politicians and activists and the author's twenty years on the frontline of climate politics this book explores why climate is such a challenge for political systems even when policy solutions exist It argues that more democracy not less is needed to tackle the climate crisis and suggests practical ways forward Análise Visual de Padrões de Leitura em Textos da Língua Portuguesa por meio de Rastreamento Ocular

Felipe Carlos Garcia Requena,2024-05-28 O livro traz um trabalho de dissertação de mestrado cujo objetivo explorar as semelhanças e diferenças nos padrões de movimento ocular durante tarefas de leitura entre voluntários proficientes tendo como base o PISA A metodologia proposta consiste em uma análise detalhada de atividades e estratégias visuais de leitura

usando um equipamento de rastreamento ocular O experimento contou com a participação de voluntários entre estudantes e funcionários de uma instituição acadêmica e foi composto por seis questões de múltipla escolha e quatro textos todos retirados do PISA A análise dos mapas de atenção visual gerados através do experimento permitiu identificar entre os participantes mais qualificados que as fixações do olhar ocorreram de forma mais concentrada nas áreas de resposta definidas Em contraste entre os menos qualificados as fixações ocorreram de forma menos organizada esparsa principalmente em textos não contínuos que contém imagens Tais resultados indicam que o engajamento observado evidente para os mais qualificados e os menos qualificados tendem a falhar nesse aspecto revelando uma metodologia promissora para compreender melhor as possíveis dificuldades de alunos em nível escolar nessa atividade cognitiva complexa O público-alvo são as pessoas que têm interesse em compreender como essa proposta indicar um caminho para melhoria da educação com relação ao PISA
