2016 Wits Applications:

Proceedings of the International Conference Theory and Applications in the Knowledge Economy TAKE 2018

Gaby Neumann, Justyna Majewska, Szymon Truskolaski, 2018-07-08 Foreword TAKE 2018 follows with success the two previous editions. We gather 60 papers presented by scholars from 15 countries which address the complex relation between theory and applications in the realm of the knowledge economy. We address specific aspects of knowledge management, human resource development and management, intellectual capital and many other scientific areas relevant for the economy of today. We hope these proceedings will summarize and illustrate well what happened in the conference and look forward for next years edition. Thank you very much for your participation as local organizer, keynote speaker, stream leader, reviewer, author, helper or just participant. Eduardo Tom, Conference Chair, Poznan, July 2018.

Applications of the Input-Output Framework Kakali Mukhopadhyay, 2018-12-05 This book provides a fresh perspective on the ever growing relevance of input output analysis in problem solving. It is based on the 19th National Conference of the Input Output Research Association of India (IORA) held in 2017 in Mumbai, India. The conference promoted the exchange of ideas on input output analysis and related methods among economists, government officials, policymakers, academicians and industrialists. The book captures the unique ideas of prominent scholars, extends the basic input output framework, analytical tool, outlines the possible impacts of some major policy decisions adopted by the Government of India and puts forward concrete policy suggestions. In addition, it highlights the versatility of the Leontief model which is currently being extended to cover a diverse spectrum of policy issues ranging from agricultural productivity to science and technology and from carbon hotspots to energy and environmental consequences. A perfect blend of theory and application, the book provides a realistic outlook on sensitive economies and interdependencies between sectors.

The Geopolitics of Postdigital Educational Development Michael A. Peters, Benjamin J. Green, Olivera Kamenarac, Petar Jandrić, Tina

Besley, 2025-11-03 This volume examines the evolving role of education in contemporary geopolitical landscapes where technological innovation global networks and national interests redefine its purpose Moving beyond territorial geopolitics it explores education as a critical asset in postdigital societies embedded in techno nationalist agendas and global power structures In AI genomics nanotechnology and quantum technologies education serves dual functions shaping epistemic authority and underpinning knowledge economies These developments challenge paradigms of truth consciousness and

equitable knowledge access The chapters engage with discourses on digital sovereignty postdigital privilege democracy and resistance illustrating how education restructures global power relations Synthesizing perspectives from geopolitics digital transformation and postdigital educational development it underscores understanding education as a contested terrain where global equity inclusion and ethical technological governance are negotiated This book is particularly suited for researchers of postdigital education The Geopolitics of Postdigital Educational Development is complemented by Postdigital Education for Development also edited by Michael A Peters Olivera Kamenarac Ben Green Petar Jandri and Tina Besley *Recent Trends in Electronics and Communication* Amit Dhawan,Vijay Shanker Tripathi,Karm Veer Arya,Kshirasagar Naik,2021-12-13 This book comprises select proceedings of the International Conference on VLSI Communication and Signal processing VCAS 2020 The contents are broadly divided into three topics VLSI Communication and Signal Processing The book focuses on the latest innovations trends and challenges encountered in the different areas of electronics and communication especially in the area of microelectronics and VLSI design communication systems and networks and image and signal processing It also offers potential solutions and provides an insight into various emerging areas such as Internet of Things IoT System on a Chip SoC Sensor Networks underwater and underground communication networks etc This book will be useful for academicians and professionals alike Creativity in Intelligent Technologies and Data Science Alla Kravets,Maxim Shcherbakov,Marina Kultsova,Peter Groumpos,2017-08-28 This book constitutes the refereed proceedings of the Second Conference on Creativity in Intelligent Technologies and Data Science CIT Open Science Semantic Technologies Computer Vision and Knowledge Based Control Pro Active Modeling in Intelligent Decision Making Support Data Science in Energy Management and Urban Computing Design Creativity in CASE CAI CAD PDM Intelligent Internet of Services and Internet of Things Data Science in Social Networks Analysis Creativity and Game Based Learning Intelligent Assistive Technologies Software Design and Application **A Glass Half Full** Sanjay Kathuria,2018-09-19 Trade has played a critical role in global poverty reduction In harnessing the potential of trade some of the most successful countries have developed strong trade relationships with their neighbors However many South Asian countries have trade regimes that often offset the positive impact of geography and proximity This report documents systematically the gaps between current and potential trade in South Asia and addresses important specific barriers that have held trade back These barriers include tariffs and paratariffs real and perceived nontariff barriers connectivity costs and the broader trust deficit This policy focused report unpacks these critical barriers to effective trade integration in South Asia through four in depth studies that produce new detailed on the ground knowledge Three of the studies are based on extensive stakeholder consultations Two studies also rely on tailored surveys The fourth study on tariffs benefits from new data on paratariffs The report also marshals new evidence showing how trading regimes in South Asia discriminate against each other Given the South Asian context incremental yet concrete steps aimed at tapping the potential of deeper integration are appropriate The report has been drafted in this spirit It offers

precise actionable policy recommendations that could help achieve measurable progress in key areas of trade and integration that would be to the advantage of all countries in the region

The Thinking University Søren S.E. Bengtsen, Ronald Barnett, 2018-04-27 This book reinvigorates the philosophical treatment of the nature purpose and meaning of thought in today's universities The wider discussion about higher education has moved from a philosophical discourse to a discourse on social welfare and service economics and political agendas This book reconnects philosophy with the central academic concepts of thought reason and critique and their associated academic practices of thinking and reasoning Thought in this context should not be considered as a merely mental or cognitive construction still less a cloistered college but a fully developed individual and social engagement of critical reflection and discussion with the current pressing disciplinary political and philosophical issues The editors hold that the element of thought and the ability to think in a deep and groundbreaking way is still the essence of the university But what does it mean to think in the university today And in what ways is thought related not only to the epistemological and ontological issues of philosophical debate but also to the social and political dimensions of our globalised age In many countries the state is imposing limitations on universities dismissing or threatening academics who speak out critically With this volume the editors ask questions such as What is the value of thought What is the university's proper relationship to thought To give the notion of thought a thorough philosophical treatment the book is divided into three parts The focus moves from an epistemological perspective in Part I to a focus on existence and values in higher education in Part II and then to a societal oriented focus on the university in Part III All three parts in their own ways debate the notion of thought in higher education and the university as a thinking form of being
