

DESIGNING FOR ALL AGES & ABILITIES

Every design must meet the needs of a diverse range of potential bike riders. Across North America, however, many existing bike facility designs provide enough comfort for only the boldest people taking and exclude many who might otherwise ride.

IN ALL AGES & ABILITIES people deserve to use their local communities and provide ideas for alternative transportation. A good design is one that is safe, easy to use, and meets the needs of all people. The Urban Bikeway Design Guide provides a framework for designing bike facilities that are safe, easy to use, and meet the needs of all people. The guide is a resource for designers, planners, and the public to create a safe and comfortable environment for all people to use their local communities.

Third Edition

The third edition of the Urban Bikeway Design Guide revised (existing) Guidelines for bikeways & (existing) urban streets to be more city streets safe.

OUR VISION

Cities where safe, sustainable, and equitable transportation systems connect communities to the resources they need to thrive
