Doing Global History Roland Wenzlhuemer, 2019-10-31 The field of Global History has experienced an unprecedented boom in the last two decades and carved itself deeply into the practice of historical research. Despite this, its conceptual foundations have rarely been explored. This introduction to what Global History is brings together theory and practice with 6 key concepts delivered through 6 accessible case studies. Re-evaluating the central concerns and key approaches in the field, it offers an up-to-date discussion of the foundations of Global History, its guiding questions and principal methods at work. *Doing Global History* offers students valuable insights into the ways general concepts can be used and applied when doing historical research. The 6 concepts—connections, actors, structures, space, time, and transit—and their accompanying examples will not only help readers to get a solid grasp of what global history means but will stimulate further engagement in the field. Wenzlhuemer successfully shows that global history is best considered as a perspective, not a theory or paradigm, and guides the reader through ways it can be used in practice to draw new and exciting conclusions. Tailored for classroom and student use, this book will be invaluable to advanced undergraduates and postgraduates of Global History.

Global History and New Polycentric Approaches Manuel Perez Garcia, Lucio De Sousa, 2017-12-06 This book is open access under a CC BY 4.0 license. Rethinking the ways global history is envisioned and conceptualized in diverse countries such as China, Japan, Mexico, or Spain, this collection considers how global issues are connected with our local and national communities. It examines how the discipline has evolved in various historiographies from Anglo-Saxon to southern European and its emergence in Asia with the rapid development of the Chinese economy, motivation to legitimate the current uniqueness of the history and economy of the nation. It contributes to the revitalization of the field of global history in Chinese historiography, which have been dominated by national narratives and promotes a debate to open new venues in which important features such as scholarly mobility, diversity, and internationalization are firmly rooted, putting aside national specificities. Dealing with new approaches on the use of empirical data by framing the proper questions and hypotheses and connecting western and eastern sources, this text opens a new forum of discussion on how global history has penetrated in western and eastern historiographies, moving the pivotal axis of analysis from national perspectives to open new venues of global history.

Explorations in History and Globalization Cátia Antunes, Karwan Fatah-Black, 2016-04-14 Considering the ways in which the global turn is changing the theory and practice of historical disciplines, *Explorations in History and Globalization* engages with the concept and methodology of globalization, challenging traditional divisions of space and time to offer a range of perspectives on how globalization has affected social, economic, political, and cultural history. Each chapter covers a specific theme, discussing how globalization has shaped these themes and how they have contributed to globalization throughout history. Including topics such as ecological exchanges, trade exchanges, knowledge migration, empire, and urbanization, this volume both explains historical trajectories through a global analytical framework and provides tools that

students can employ when posing their own research questions about historical globalization. Containing suggestions for further reading and guidance on the ways in which primary source material can be used as a basis for global historical studies, this is the ideal volume for all students interested in the global exchanges between people throughout history.

Global History, Globally Sven Beckert, Dominic Sachsenmaier, 2018-02-22 In recent years, historians in many different parts of the world have sought to transnationalize and globalize their perspectives on the past. Despite all these efforts to gain new global historical visions, however, the debates surrounding this movement have remained rather provincial in scope. *Global History Globally* addresses this lacuna by surveying the state of global history in different world regions. Divided into three distinct but tightly interweaved sections, the book's chapters provide regional surveys of the practice of global history on all continents, review some of the research in four core fields of global history, and consider a number of problems that global historians have contended with in their work. The authors hail from various world regions and are themselves leading global historians. Collectively, they provide an unprecedented survey of what today is the most dynamic field in the discipline of history. As one of the first books to systematically discuss the international dimensions of global historical scholarship and address a wealth of questions emanating from them, *Global History Globally* is a must-read book for all students and scholars of global history.

Roadmap to the Regents Princeton Review, 2003 The Princeton Review's Roadmap series gives students the help they need to make state tests a breeze. The Roadmap guides for New York students include practice tests designed to simulate the real exams as closely as possible. The Roadmap series works as a year-long companion to earning higher grades as well as passing high-stakes exams. *Climate Change and the Course of Global History* John L.

Brooke, 2014-03-17 The first global study by a historian to fully integrate the earth system approach of the new climate science with the material history of humanity. **Discipline Problems** Tadashi Dozono, 2024-05-07 Angel, a Black tenth grader at a New York City public school, self-identifies as a nerd and likes to learn. But she's troubled that her history classes leave out events like the genocide and dispossession of Indigenous people in the Americas, presenting a sugar-coated image of the United States that is at odds with her everyday experience. The history I learned in school is simpler, she says. The world I live in is a lot more complex. Angel, like every student interviewed in *Discipline Problems*, has been identified by teachers as a troublemaker: a student whose behavior disrupts classroom norms and interferes with instruction. But her critiques of the curriculum she's taught speak to her curiosity and insight, crucial foundations for understanding history. Like many students who have been marginalized by systemic racism in American schools, she exposes the shortcomings of her classrooms' academic environments by challenging both the content and the methods of her education. All too often, these challenges are framed as troublemaking, and the students are disciplined for acting out instead of being rewarded for their intellectual engagement. Tadashi Dozono, a professor of education and former high school social studies teacher, takes seriously the often overlooked critiques that students of color who get labeled as troublemakers direct toward their high

school history curriculum He reinterprets troublemaking usually cast as a behavioral deficit as an intellectual asset and form of reasoning that challenges the disciplining reason of classrooms where whiteness is valued over the histories and knowledge of people of color Dozono shows how what are traditionally framed as discipline problems can be seen through a different lens as responses to educational practices that marginalize non white students Discipline Problems reveals how students of color seek out alternate avenues for understanding their world and imagines a pedagogy that champions the curiosity intellect and knowledge of marginalized learners Finding Buddhists in Global History Jonathan S. Walters,1998

Thinking Globally Mark Juergensmeyer,2014 In this accessible text Mark Juergensmeyer a pioneer in global studies provides a comprehensive overview of the emerging field of global studies from regional topical and theoretical perspectives Each of the twenty compact chapters in Thinking Globally features Juergensmeyer s own lucid introduction to the key topics and offers brief excerpts from major writers in those areas The chapters explore the history of globalization in each region of the world from Africa and the Middle East to Asia Europe and the Americas and cover key issues in today s global era such as Challenges of the global economy Fading of the nation state Emerging nationalisms and transnational ideologies Hidden economies of sex trafficking and the illegal drug trade New communications media Environmental crises Human rights abuses Thinking Globally is the perfect introduction to global studies for students and an exceptional resource for anyone interested in learning more about this new area of study *Agricultural and Pastoral Societies in Ancient and Classical History* Michael Adas,2001 Introduces readers to the cross cultural study of ancient and classical civilizations The book is divided into two sections the first examining the ongoing interaction between ancient agrarian and nomadic societies and the second focusing on regional patterns in the dissemination of ideas **Debating New Approaches to History** Marek Tamm,Peter Burke,2019 A cutting edge collection of articles and commentaries in which leading scholars from across the globe discuss and debate the main problems and challenges facing today s historians **Recent Themes in World History and the History of the West** Donald A. Yerxa,2009 New insights on global histories and Western civilization from leading scholars in the field Described as the New York Review of Books for history Historically Speaking has emerged as one of the most distinctive historical publications in recent years actively seeking out contributions from a pantheon of leading voices in historical discourse from both inside and outside academia Recent Themes in World History and the History of the West represents some of the best writing on Western civilization and world history in the past five years This collection of essays and interviews from Historically Speaking gives leading historians approaches to the continually evolving field of world history with a specific emphasis on the relationship of Western civilization to the history of the world The book also discusses the effect of empire on global history and the many ways empire continues to manifest in the contemporary world The contributors discuss world history as an intricate story of the connections within the global community rather than a tidy static narrative that attempts to summarize everything in our global past In this volume the study of world history is

presented as a constantly comparative endeavor concerned with the major themes that link and divide humanity **A Cross- Disciplinary Primer on the Meaning of Principles of Innovation** Matthew M. Mars,2013-07-18 Innovation is a central mechanism in the progression of society and often captures the imagination and enthusiasm of corporate leaders public policy makers and so on In this volume a novel approach to an understanding innovation in contexts that range from the socio cultural to the technological is presented **Schooling by Design** Grant P. Wiggins,Jay McTighe,2007 The authors of Understanding by Design share a compelling strategy for creating schools that truly fulfill the central mission of education to help students become thoughtful productive and accomplished at worthy tasks **Mapping South-South Connections** Fernanda Peñaloza,Sarah Walsh,2019-03-15 This book explores contemporary cultural historical and geopolitical connections between Latin America and Australia from an interdisciplinary perspective It seeks to capitalise on scholarly developments and further unsettle the multiple divides created by the North South axis by focusing on processes of translocal connectivities that link Australia with Latin America The authors conceptualise the South South not as a defined geographic space with clear boundaries but rather as a mobile terrain with multiple evolving and overlapping translocal processes

Guns and Ledgers Bozhong Li,2023-12-27 This book seeks to reconcile the dual forces of war and economic globalization in tracing China s early modernity For late imperial China there were two forms of encounter with the West the guns of invading Europeans and the ledgers by which trade between China and the West was measured and regulated Even today China s reactions to the West oscillate between business driven openness and military paranoia In this intellectual tour de force Bozhong Li one of China s preeminent intellectual and economic historians traces the unprecedented transition that led China into the modern world the book will be of value for economists historians and sinophiles alike **Jesuits and**

Global Regents Answers: Bestsellers in 2023 The year 2023 has witnessed a remarkable surge in literary brilliance, with numerous captivating novels captivating the hearts of readers worldwide. Lets delve into the realm of bestselling books, exploring the captivating narratives that have captivated audiences this year. Global Regents Answers : Colleen Hoover's "It Ends with Us" This heartfelt tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover skillfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can succeed. Global Regents Answers : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This intriguing historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids compelling storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Discover the Magic : Delia Owens "Where the Crawdads Sing" This evocative coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens spins a tale of resilience, survival, and the transformative power of nature, captivating readers with its evocative prose and mesmerizing setting. These top-selling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of engaging stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a exceptional and gripping novel that will keep you guessing until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
