Altus Cost Guide 2015

Tony Dean

Altus Cost Guide 2015:

Alberta John Church, Neale Smith, 2022-03-01 Alberta A Health System Profile provides the first detailed description of Alberta's health care system and the underpinning political and social forces that have shaped it. Drawing on significant wealth from government revenues generated through the energy sector, Alberta has been able to develop an extensive public health and health care infrastructure. Alberta has used its financial resources to attract health professionals by offering the highest levels of financial compensation in Canada. However, although it spends more per capita than other Canadian jurisdictions, Alberta's health care system costs and health outcomes are mediocre compared to those of many other Canadian jurisdictions. This unexpected outcome is the consequence of the unique interplay of economic and political forces within Alberta's political economy. Through an examination of Alberta's political and economic history and using research on the structures and services provided, Alberta A Health System Profile provides a detailed description of the programs and services that constitute Alberta's health care system.

Icebergs, Zombies, and the Ultra-Thin Matthew Soules, 2021-05-04 Soules's excellent book makes sense of the capitalist forces we all feel but cannot always name. Icebergs, Zombies, and the Ultra-Thin arms architects and the general public with an essential understanding of how capitalism makes property required reading for those who think tomorrow can be different from today. Jack Self, coeditor of Real Estates Life Without Debt. In Icebergs, Zombies, and the Ultra-Thin, Matthew Soules issues an indictment of how finance capitalism dramatically alters not only architectural forms but also the very nature of our cities and societies. We rarely consider architecture to be an important factor in contemporary economic and political debates, yet sparsely occupied ultra-thin pencil towers develop in our cities, functioning as speculative wealth storage for the super-rich, and cavernous iceberg homes extend architectural assets many stories below street level. Meanwhile, communities around the globe are blighted by zombie and ghost urbanism, marked by unoccupied neighborhoods and abandoned housing developments. Learn how the use of architecture as an investment tool has accelerated in recent years, heightening inequality and contributing to worldwide financial instability. See how investment imperatives shape what and how we build, changing the very structure of our communities. Delve into high profile projects like the luxury apartments of architect Rafael Viñoly's 432 Park Avenue. Understand the convergence of technology, finance, and spirituality, which together are configuring the financialized walls within which we eat, sleep, and work. Includes dozens of photos and drawings of architectural phenomena that have changed the way we live. Essential reading for anyone interested in architecture, design, economics, and understanding the way our world is formed.

Building Better Public Services Tony Dean,2015-08-12 For decades public service organizations have been under constant and growing pressure from citizens and stakeholders to provide more integrated effective and accountable programs and services Governments are beginning to acknowledge that they can't own every issue and increasingly look to collaboration networking and consultation at many levels as they design and develop policies programs and service delivery mechanisms Building Better Public Services explores the challenges facing public services in the 21st century including the need for systemic cultural change enhanced governance evidence informed policy and program design and shared approaches to service delivery Based on case studies and interviews supplemented by first person experience Building Better Public Services will take you inside the world of public services in Canada and the United Kingdom to explore capacity building successes and lessons learned The book offers insights into innovations that will inform public servants as they work to improve services for citizens and gives directional advice and observations on the importance of public services leadership an area rarely explored in business leadership literature An essential handbook on how to improve public policy and services This is not yet another book focused primarily on making government smaller or driven by an ideology of austerity It is rather grounded in a deep appreciation of the importance of public service to our quality of life and well being and of the great advantages Canada's professional nonpartisan public service affords Drawing on examples across Canada and internationally of what works and what does not Tony offers concrete recommendations for building a more citizen centred open collaborative public service Alex Himelfarb Former Clerk of the Privy Council Government of Canada and current Chair of WWF Canada and the Canadian Alliance to End Homelessness I hope Tony Dean's reflections bring a long overdue debate to a critical subject how to make public services work better Innovation in the public sector is a subject that cries out for real discussion and Tony has done us all a great favour by analysing these issues with commitment and flair It's not about cutting things it's about creativity and getting things done breaking down silos and making it happen Bob Rae Lawyer negotiator and Ontario's 21st Premier This is a book written by someone who knows the day to day challenges and reality of making governments work It should be read by both current and future politicians and public servants who want to improve their governments focus on outcomes for and with citizens Dean underpins this book with relentlessly wanting to achieve more He celebrates the passion commitment and innovation of public servants but is not blind to the need for change Ray Shostak International Government Adviser and former head of the Prime Minister's Delivery Unit and Director General Performance HM Government UK
