Stakeholders, groups and society are considered. This is done, often, in the form of a stakeholder analysis. Stakeholder analysis is a tool used to identify and understand the interests of those who are affected by or can affect the organization. It is a process of identifying the stakeholders of an organization and understanding their interests, influence, and power. Stakeholder analysis is a key tool in strategic management and is used to inform decision-making and to develop strategies that are responsive to the needs and interests of all stakeholders.
