2025 Edition Investing:

Global Economic Prospects, June 2025 World Bank, 2025-06-10 The global economy is facing another substantial headwind emanating largely from an increase in trade tensions and heightened global policy uncertainty For emerging market and developing economies EMDEs the ability to boost job creation and reduce extreme poverty has declined Key downside risks include a further escalation of trade barriers and continued policy uncertainty These challenges are exacerbated by subdued foreign direct investment into EMDEs Global cooperation is needed to restore a more stable international trade environment and scale up support for vulnerable countries grappling with conflict debt burdens and climate change Domestic policy action is also critical to contain inflation risks and strengthen fiscal resilience To accelerate job creation and long term growth structural reforms must focus on raising institutional quality attracting private investment and strengthening human capital and labor markets Countries in fragile and conflict situations face daunting development challenges that will require tailored domestic policy reforms and well coordinated multilateral support **FDI Qualities**

Review of Jordan Strengthening Sustainable Investment OECD, 2022-06-22 Foreign Direct Investment FDI provides an important source of financing in Jordan but its reform momentum needs to be sustained and deepened so that the benefits of investment can be shared more widely across society This report examines how FDI can help Jordan meet Sustainable Development Goals in areas of productivity and innovation job quality and skills gender equality and decarbonisation

Enabling legal frameworks for sustainable land-use investments in Tanzania: Legal assessment report Robert Kibugi, D. Andrew Wardell, Marie-Claire Cordonier Segger, Caroline Haywood, Renée Gift, 2015-10-08 The International Development Law Organization IDLO and the Center for International Forestry Research CIFOR assessed the legal frameworks that govern land use activities and investments in Tanzania The policy institutional and legal frameworks are well developed although implementation and enforcement remains weak due to ambiguities in the law and a general lack of supportive incentives This Legal Assessment report for Tanzania examines four key challenges to the attainment of sustainable land use investments These comprise Enforcement of environmental and social safeguards Tanzania has made progress in implementing the Environmental Management Act by ensuring greater compliance with the Environmental Impact Assessment regulations although exceptions exist in the construction sector and mining legislation that often enables the government to circumvent important land tenure safeguards Incentives for sustainable investments in the legal framework A lack of incentives exists despite the creation of the Tanzania Investment Centre the adoption of an Investment Guide in 2013 and the incorporation of sustainability considerations into laws and policies governing investments in the agriculture energy and forestry and mining sectors Land tenure security Tanzania s land law framework now includes formal recognition of customary title and the reservation of land under the category of village land exclusively for Tanzanians although improvements are still needed in terms of processes of consultation and compensation Public awareness and lack of access to

information Awareness of natural resources and investment policies legislation and regulations is generally low amongst rural communities as well as Ward executive officers village leaders and village land committee members Rural radio represents their most important source of information

NAIP toolkit for Malabo domestication: Economic modeling of agricultural growth and investment strategy, case study of Kenya Fofana, Ismaël, Omolo, Miriam W. O., Goundan, Anatole, Magne Domgho, Léa Vicky, Collins, Julia, Marti, Estefania, 2019-03-07 The Malabo Agenda on Accelerated Agricultural Growth and Transformation has brought technical challenges to the development of agricultural strategies by expanding the number of commitments and goals under the Comprehensive Africa Agriculture Development Programme In this paper we describe and apply an economic modeling framework that was developed to identify the agricultural investment priority areas for a country and to define milestones to track its progress towards the Malabo goals The framework consists of a three layer simulation model that aims to capture multiple Malabo commitments and goals First the agricultural productivity analysis uses the stochastic meta frontier technique to assess opportunities to increase agricultural productivity Second the economywide analysis uses an agricultural and investment focused computable general equilibrium model to capture the Malabo goal on agricultural growth intra African trade of agricultural commodities and public and private agricultural investments Third the microeconomic analysis builds upon statistical economic modeling to allow direct measurement and simulation of the Malabo goals on poverty and hunger The modeling framework is applied to Kenya using the most recent data The Malabo Agenda simulation results indicate that Kenya's current nonagriculture led growth is not sufficient to achieving the Malabo overarching goals on poverty and hunger Agriculture led growth complemented by extended social assistance is more likely to

close the income growth and inequality gaps and contribute to achieving the multiple Malabo commitments and goals by 2025
