Thompson, III,2014-12-24 What would America look like if the liberals ultimately triumph say by the year 2050 WTF This is a Liberal Utopia a satire on liberalism all the unintended consequences of this heart felt way of looking at the world around oneself

usually in the cloistered halls of academia some government agency some left wing nonprofit activist organization and or congress A really fantabulous glimpse at what the future holds when these magnificent starry eyed wonders finally come out on top By 2050 America will have gone through some slight changes thus resulting in many really noteworthy phenomena For one there is no longer any need for elections there will be a Forever President whose last name could be Castro Furthermore odds are welfare moms will have largely replaced small business enterprises with their monthly government stipends most Americans will as likely as not have never worked because it is distinctly possible that there won't be any save for those shovel ready jobs the Democrats will in all likelihood keep bringing up Gaia Mother Earth will have probably been rescued from the threatening effects of Global Warming Global Cooling and Climate Change by turning to more agrarian economy where mazes are likely to be the cornerstone For those lucky enough to own wheeled transportation they will likely be driving around in either battery powered bubble cars made of styrofoam or Latino lowriders which might look a lot like sparklers driving along the potholed highways of tomorrow The English language will have been replaced by local cultural colloquialisms with phonetics playing the principle role for making up words and phrases and writing them out All this and more will be seen through the eyes of one of those liberal visionaries an Ivy League English Professor whose name is Felix Schwartz the narrator the author and the reader A glimpse into our wondrous future and what awaits us all when the magnificent munificents are finally given the reins to take America down that Yellow Brick Road to their utopian imaginary World of OZ WTF This is a Liberal Utopia **Public Opinion**, 1866 *THE MATERIAL STRUCTURE* Tan Kheng

Yeang, 2014-02 The conflict between the material side of human existence and that of our spiritual and philosophical beliefs is as old as humanity itself but one side of the equation is as important as the other and no society can hope to sustain its existence without an equitable balance between the two In this thoughtful and thought provoking volume the author offers a unique perspective on the system of concrete tangible products produced by humankind that form the physical foundation of society He calls this system the material structure However this book is not intended as a scientific study of the production distribution and consumption of goods that is the realm of economics rather it provides an overview of the totality of products created by humans for human consumption and assesses their role as a constituent of civilization The subject of this study could also be designated as productology The development and growth of the material structure have occurred in an inconsistent haphazard fashion Advancements in science medicine and technology have contributed to the creation of a chaotic mass of unrelated products Even the advent of mechanization has failed to yield any further insights into the conglomeration of products that form an integral part of today's world This volume proposes to give unity to the material structure by classifying its components into divisions determining the principles and rules that govern or should govern it and relating it to the other constituents of civilization including philosophy and religion which throughout history have often been inimical to the material side of human existence The author presents a cogent and persuasive argument that in order to

survive civilization needs one component as much as the other The key is to achieve an equitable balance between these two dichotomies something which to date no society has been capable of accomplishing This book provides a fascinating and fresh approach to an age old enigma that has plagued humankind since the dawn of our existence Harper's New Monthly Magazine ,1889 Important American periodical dating back to 1850 **Harper's New Monthly Magazine** Henry Mills Alden,1889 Harper s informs a diverse body of readers of cultural business political literary and scientific affairs
