Fully revised and updated, the information is accessible and easy to read. It discusses fundamental principles underlying cerebral and spinal angiography, interventional techniques, devices, and practice guidelines, and commonly encountered cerebrovascular disorders for which interventional and endovascular methods are appropriate. New topics and features include intracerebral and intraventricular hemorrhage, intracranial tumor embolization, vasculitis work up and management, percutaneous carotid artery puncture technique, and pediatric aspects of neurointerventional techniques and disease states. *Handbook of Cerebrovascular Disease and Neurointerventional Technique* 3rd Edition is a portable and concise resource for interventional neuroradiologists, neurologists, neurosurgeons, cardiologists, and vascular surgeons.

Textbook of Catheter-Based Cardiovascular Interventions Peter Lanzer, 2018-04-30 This book is a fully updated and revised second edition of a highly successful text in which a new concept of knowledge mining based on explication and transfer of interventional knowledge of experts has been implemented. The dedicated training program that is set out will serve the needs of all interventional operators, whether cardiologists, vascular surgeons, vascular specialists, or radiologists, enabling them to achieve a consistent expert level across the entire broad spectrum of catheter-based interventions. Operator skills and, in particular, decision making and strategic skills are the most critical factors for the outcome of catheter-based cardiovascular interventions. Currently, such skills are commonly developed by the empirical trial and error method only. The explicit teaching, training, and learning approach adopted in this book permits the rapid transfer of interventional knowledge and enables individual operators to negotiate steep learning curves and acquire complex skills in a highly efficient manner. It will thereby offer invaluable assistance in meeting successfully the challenges of modern cardiovascular care.
