for and apps related to planning instruction and assessing student learning identifies favorite apps whose affordances are most likely to foster certain disciplinary literacies includes resources and apps for professional development provides examples of student learning in the classroom A website www.usingipads.pbworks.com with resources for teaching and further reading for each chapter a link to a blog for continuing conversations about topics in the book appsforlearningliteracies.com and more enhance the usefulness of the book

Playframes Celia Pearce, 2024-12-17 An exploration of how we know we're playing and what happens when we don't Playframes builds on the work of Gregory Bateson and Erving Goffman to take a deep dive into Bateson's primary question How do we know we're playing In this book Celia Pearce addresses this question by building a comprehensive theory of the specific mechanisms that metacommunicate the message this is play This big tent approach covers a broad swath of playframes ranging from theme parks to cosplay board and video games and sports and describes how spatial and temporal frames as well as artifacts such as costumes and uniforms toys and sports equipment let us know when a play activity is underway Pearce teases out distinctions between ritual and play activities including social practices in which they merge or are indistinguishable as well as incidents of frame breach or misalignment where participants' perception of what is going on diverges These principles are illustrated with a series of four topical studies that explore various scenarios in which play and non-play contexts are juxtaposed or blurred These span from delightful fan convention cosplay and simulated and virtual weddings to confusing virtual currency and bitcoin to dangerous Building on recent research the book culminates with an in-depth analysis of the gaming roots of the January 6 Capitol insurrection and argues that playframe breach and deliberate misalignment were the major contributing factors

Passion-Driven Education Connor Boyack, 2016-08-16 Do you need parenting advice on how to inspire your child to love learning Whether you homeschool or send your kids to public or private school this is essential reading for your situation Why Because schooling has become a disaster Your child's interests and uniqueness are disregarded and structured curriculum and standards like Common Core place them on a conveyor belt that treats all children the same This system crushes a child's curiosity Your child deserves better There is a better way one that ensures your child sees learning as a joy and provides you the parent with a much less stressful way to educate and empower your son or daughter In this book Connor Boyack shares the exciting philosophy and empowering day to day steps involved in passion-driven education A child's curiosity and natural desire to learn are like a tiny flame easily extinguished unless it's protected and given fuel This book will help you as a parent both protect that flame of curiosity and supply it with the fuel necessary to make it burn bright throughout your child's life Let's ignite our children's natural love of learning

Five Things Discussed in the Book What's the problem with schools Whether public private or home schooling is structured in a way that has significant negative outcomes for children academically psychologically and emotionally To understand the solutions you first need to review these problems What's your goal Too many parents simply send their children to school out of ritual and expectation without

thinking about the end result Caring parents must ponder the outcomes of education and what they want their children to become Once goals are established we can make a plan I need solutions It s easy to point out problems with schooling It s more important that we review serious and attainable solutions that can help you educate your child and preserve or restore their natural love of learning What are the alternatives If schools are inherently problematic and crush a child s curiosity what can be done We ll review several differing approaches to education that incorporate some of the solutions listed earlier Passion driven education The best way to educate a child is to speak to them in a language they already understand using their personal interests as a hook to make other subjects interesting and relevant We ll review some examples and then give you an action plan

Data Science for Business Foster Provost,Tom Fawcett,2013-07-27 Written by renowned data science experts Foster Provost and Tom Fawcett Data Science for Business introduces the fundamental principles of data science and walks you through the data analytic thinking necessary for extracting useful knowledge and business value from the data you collect This guide also helps you understand the many data mining techniques in use today Based on an MBA course Provost has taught at New York University over the past ten years Data Science for Business provides examples of real world business problems to illustrate these principles You ll not only learn how to improve communication between business stakeholders and data scientists but also how participate intelligently in your company s data science projects You ll also discover how to think data analytically and fully appreciate how data science methods can support business decision making Understand how data science fits in your organization and how you can use it for competitive advantage Treat data as a business asset that requires careful investment if you re to gain real value Approach business problems data analytically using the data mining process to gather good data in the most appropriate way Learn general concepts for actually extracting knowledge from data Apply data science principles when interviewing data science job candidates

Testing 3, 2, 1 Michael Lawrence,2020-03-23 Testing 3 2 1 is the story of how Australian education fell behind the world s best and how Finland came to lead It is also a guide to how some of Finland s ideas can be used by teachers and schools to begin to reverse the current malaise of Australia s education system Part memoir part investigative journalism part call to action this easy to read and highly compelling plea for an improved education system can t be ignored Lawrence reminds us that we can and must do better Jared Cooney Horvath PhD Educational Neuroscientist Melbourne Graduate School of Education University of Melbourne Author of Stop Talking Start Influencing 12 Insights from Brain Science to Make Your Message Stick

Artificial General Intelligence Jordi Bieger,Ben Goertzel,Alexey Potapov,2015-07-14 This book constitutes the refereed proceedings of the 8th International Conference on Artificial General Intelligence AGI 2015 held in Berlin Germany in July 2015 The 41 papers were carefully reviewed and selected from 72 submissions The AGI conference series has played and continues to play a significant role in this resurgence of research on artificial intelligence in the deeper original sense of the term of artificial intelligence The conferences encourage interdisciplinary research based on different understandings of

intelligence and exploring different approaches AGI research differs from the ordinary AI research by stressing on the versatility and wholeness of intelligence and by carrying out the engineering practice according to an outline of a system comparable to the human mind in a certain sense
