build an air station for the US Navy charting the contractors hard won progress as they scramble to build the naval base as well as runways for US Army Air Corps B 17 Flying Fortresses while war clouds gather over the Pacific Five hours after their attack on Pearl Harbor the Japanese struck Wake Island which was now isolated from assistance The undermanned Marine Corps garrison augmented by civilian contractor volunteers fought back against repeated enemy attacks at one point thwarting a massive landing assault The atoll was under siege for two weeks as its defenders continued to hope for the US Navy to come to their rescue Finally succumbing to an overwhelming amphibious attack the surviving Americans military and civilian were taken prisoner While most were shipped off to Japanese POW camps for slave labor a number of the civilians were retained as workers on occupied Wake Later in the war the last ninety eight Americans were brutally massacred by their captors The civilian contractors who had risked distance and danger for well paying jobs ended up paying a steep price their freedom and for many their lives Written by the daughter and granddaughter of civilians who served on Wake Island Building for War sheds new light on why the United States was taken by surprise in December 1941 and shines a spotlight on the little known virtually forgotten story of a group of civilian workers and their families whose lives were forever changed by the events on this tiny atoll **The New York Times Magazine** ,2007 *L.
