Animal Vegetable Miracle:

Animal, Vegetable, Miracle: A Year of Food Life Barbara Kingsolver, 2007 Animal, Vegetable, Miracle - Tenth Anniversary Edition Barbara Kingsolver, Camille Kingsolver, Steven L. Hopp, Lily Hopp Kingsolver, 2017-05-02 A beautiful deluxe trade paperback edition celebrating the 10th anniversary of Barbara Kingsolver's New York Times bestseller which describes her family's adventure as they move to a farm in southern Appalachia and realign their lives with the local food chain. Since its publication in 2007, *Animal Vegetable Miracle* has captivated readers with its blend of memoir and journalistic investigation. Newly updated with original pieces from the entire Kingsolver clan, this commemorative volume explores how the family's original project has been carried forward through the years. When Barbara Kingsolver and her family moved from suburban Arizona to rural Appalachia, they took on a new challenge to spend a year on a locally produced diet, paying close attention to the provenance of all they consume. Concerned about the environmental, social, and physical costs of American food culture, they hoped to recover what Barbara considers our nation's lost appreciation for farms and the natural processes of food production. Since 2007, their scheme has evolved enormously. In this new edition featuring an afterword composed by the entire Kingsolver family, Barbara's husband Steven discusses how the project grew into a farm-to-table restaurant and community development project training young farmers in their area to move into sustainable food production. Camille writes about her decision to move back to a rural area after college and how she and her husband incorporate their food values in their lives as they begin their new family. Lily, Barbara's youngest daughter, writes about how growing up on a farm in touch with natural processes and food chains has shaped her life as a future environmental scientist. And Barbara writes about their sheep and how they grew into her second vocation as a fiber artist and reports on the enormous response they've received from other home growers and local food devotees. With Americans ever growing concern over an agricultural establishment that negatively affects our health and environment, the Kingsolver family's experiences and observations remain just as relevant today as they were ten years ago. *Animal Vegetable Miracle* is a modern classic that will endure for years to come. Cogent and illuminating. Without sentimentality, this book captures the pulse of the farm and the deep gratification it provides, as well as the intrinsic humor of the situation. Janet Maslin, New York Times.

Who Gets to Go Back-To-the-Land? Valerie Padilla Carroll,2022-12 In *Who Gets to Go Back to the Land* Valerie Padilla Carroll examines a variety of media from the last century that proselytized self sufficiency as a solution to the economic instability environmental destruction and perceived disintegration of modern America In the early twentieth century books already advocated an escape for the urban white collar male The suggestion became more practical during the Great Depression and magazines pushed self sufficiency lifestyles By the 1970s the idea was reborn in newsletters and other media as a radical response to a damaged world allowing activists to promote the simple life as environmental gender and queer justice At the century s end a great variety of media promoted self sufficiency as the solution to a different set of problems from survival at the millennium to wanderlust of millennials Nevertheless these utopian narratives are written overwhelmingly for a particular audience one that is white male and white collar Padilla Carroll s archival research of the books newspapers magazines newsletters websites blogs and videos promoting the life of the agrarian smallholder illuminates how embedded race class gender and heteronormative dogmas in these texts reinforce dominant power ideologies and ignore the experiences of marginalized people Still Padilla Carroll also highlights how those left out have continued to demand inclusion by telling their own stories of self sufficiency rewriting and reimagining the movement to be collaborative inclusive and rooted in both human and ecological justice

Going Organic Without Going Broke , *Edible Memory* Jennifer A. Jordan,2015-04-14 Jordan begins with the heirloom tomato inquiring into its botanical origins in South America and its culinary beginnings in Aztec cooking to show how the homely and homegrown tomato has since grown to be an object of wealth and taste as well as a popular symbol of the farm to table and heritage foods movements She shows how a shift in the 1940s away from open pollination resulted in a narrow range of hybrid tomato crops But memory and the pursuit of flavor led to intense seed saving efforts increasing in the 1970s as local produce and seeds began to be recognized as living windows to the past
