written The scope of Asimov s Foundation the attention to detail and context of Tolkien s LotR coupled with an unmatched visionary socio ecological messianic narrative that is scarily relevant today Goodreads reviewer Frank Herbert s immortal space opera that created many of the tropes we take for granted inside them is a book that doesn t need my endorsement the nobility is some of the most decadent and depraved in fiction It s a fantastic book amazing story Goodreads reviewer The blend of science aversion exploitation of the naive by systematic manipulation of religion and witchcraft and the harsh realities of life in a barren and mineral depleted desert is astounding I love these books Goodreads reviewer Herbert succeeds at juxtaposing so many different elements ecology religion consciousness feudalism space travel gawsh I could go on It is a mainly character driven plot with the three books in this trilogy focusing on the Atreides family on Dune I think everyone should delve into this world let themselves be absorbed by it It makes you question your reality your choices your relationships and the impact you have on the world or the impact the world has on you Goodreads reviewer Dune perhaps epitomises science fiction The willingness to embrace big ideas and show them playing out on a broad canvas You have to read it to believe it Goodreads reviewer
