Angeles Architecture California Guide In Los Southern:

An Architectural Guidebook to Los Angeles Robert Winter, 2009-09 Known as the bible to Los Angeles architecture scholars and enthusiasts Robert Winter and David Gebhard's groundbreaking guide to architecture in the greater Los Angeles area is updated and revised once again From Art Deco to Beaux Arts Spanish Colonial to Mission Revival Winter discusses an impressive variety of architectural styles in this popular guide that he co-authored with the late David Gebhard New buildings and sites have been added along with all new photography Considered the most thorough L A architecture guide ever written this new edition features the best of the past and present from Charles and Henry Greene's Gamble House to Frank Gehry's Disney Philharmonic Hall This was and is again a must have guide to a diverse and architecturally rich area Robert Winter is a recognized architectural historian who lives in Los Angeles and has led architectural tours through the Los Angeles area since 1965 He is a professor at Occidental College in Los Angeles

Material Dreams Kevin Starr, 1990 In Material Dreams Starr turns to one of the most vibrant decades in the Golden State's history the 1920s when some two million Americans migrated to California the vast majority settling in or around Los Angeles Although he treats readers to intriguing side trips to Santa Barbara and Pasadena Starr focuses here mainly on Los Angeles revealing how this major city arose almost defiantly on a site lacking many of the advantages required for urban development creating itself out of sheer will the Great Gatsby of American cities He describes how William Ellsworth Smyth the Peter the Hermit of the Irrigation Crusade propounded the importance of water in Southern California's future and how such figures as the self-educated Irish engineer William Mulholland who built the main aqueducts to Los Angeles and George Chaffey who diverted the Colorado River transforming desert into the lush Imperial Valley brought life supporting water to the arid South He examines the discovery of oil Yes it's oil oil oil that makes LA boil went the official drinking song of the Uplifters Club the boosters and land developers the evangelists such as Bob Shuler the Methodist Savanarola of Los Angeles and Aimee Semple McPherson and countless other colorful figures of the period There are also fascinating sections on the city's architecture such as the remarkably innovative Bradbury Building and its eccentric neophyte designer George Wyman the impact of the automobile on city planning the great antiquarian book collections the Hollywood film community and much more By the end of the decade Los Angeles had tripled in population and become the fifth largest city in the nation In Material Dreams Kevin Starr captures this explosive growth in a narrative tour de force that combines wide-ranging scholarship with captivating prose

about the Golden State **Pop L.A.** Cécile Whiting, 2006-03-06 In this original and engaging book Cécile Whiting examines what Pop looked like when it left the highbrow cloisters of Manhattan's art galleries and ventured westward to the sprawling suburbs of Los Angeles *California. Court of Appeal (2nd Appellate District). Records and Briefs* California (State)., Received document entitled EXHIBITS **Exiled in L. A.** Volker M. Welter, 2025-11-18 The first English language volume to explore the work of architect Leopold Fischer and the inaugural study of his California legacy In 1936 Leopold Fischer 1901-1975 in exile from Nazi Germany arrived in California where he created a small but distinct oeuvre of mostly domestic architecture In contrast to his famous peers Rudolph Schindler and Richard Neutra immigrants whose Southern California buildings are frequently examined and who like Fischer studied with the modernist architect Adolf Loos Fischer and his California structures have until now escaped the attention of architectural history Exiled in L A examines Fischer's important yet overlooked contributions to Southern California architecture As the whereabouts of Fischer's archives remain unknown Volker M Welter grounds the designer's California works in comparison with his pre-exile projects and the compositions of fellow architects in California In the 1920s Fischer created experimental working class housing estates in Germany that pioneered ecological construction and living practices Comparable to their predecessors Fischer's California buildings revolve around the functioning the organization of a home as he defined domestic architecture in 1926 Featuring new photography and detailed architectural plans this book is an original contribution to the literature on Southern California's built heritage **Historic Pasadena** Ann Scheid, Ann Scheid Lund, 1999 **Street Level: Los Angeles in the Twenty-First Century** Rob Sullivan, 2016-04-01 In the latter part of the 20th a series of seminal books were written which examined Los Angeles by the likes of Reyner Banham Mike Davis Edward Soja Allen Scott Michael Dear Frederick Jameson Umberto Eco Bernard Henri Levy and Jean Baudrillard which have been hugely influential in thinking about cities more broadly The debates which were generated by these works have tended to be very heated and either defensive or offensive in approach A sufficient amount of time has since passed that a more measured approach to evaluating this work can now be taken The first section of this book Contra This and Contra That provides such a critique of the various theories applied to Los Angeles during the last century balancing the positive with the negative The second part of the book is an investigation of L A as it exists on the ground today While political the theoretical stance taken in this investigation is not mounted as a platform from which to advocate a particular ideology Instead it encompasses cultural as well as economic issues to put forth a view of L A which is coherent and cogent while at the same time considering its multi-layered complex and ever-changing qualities It concludes by arguing that sectorised off and totalizing visions of the city will not do as instruments of urban analysis and that only a theory as mobile as its target will do one that replicates the polymer nature of this place It proposes that extending that theory to the world beyond this particular city only a theory that models itself on the mobile and polymer nature of the world while still retaining a sense of the actual and the real will do as an instrument with which to comprehend
