Lucas Ledwaba, Leon Sadiki

15 2016 Limpopo Budget Speech:

Stakeholder Perspectives on World Heritage and Development in Africa Pascall Taruvinga, 2022-08-25

Stakeholder Perspectives on World Heritage and Development in Africa argues that World Heritage Sites WHS across the African continent should adopt practical innovative creative and alternative management approaches that bring greater socio economic benefits to society whilst protecting their Outstanding Universal Value Drawing on empirical evidence gathered in conversation with stakeholders at WHS across Africa the book explores the challenges involved in implementing conservation and socio economic development as a stakeholder driven process Demonstrating that heritage can no longer be viewed as totally separate from its socio economic context Pascall argues that decisions about the management of heritage need to make sense at the local level if they are to be supported by stakeholders As the book shows heritage is still viewed and managed through systems approaches and strategies inherited from the colonial period despite the increasing availability of inclusive governance systems Stakeholders offer alternative creative and innovative approaches that capitalize on the potential of World Heritage to contribute to socio economic development whilst ensuring that its credibility and integrity are maintained Stakeholder Perspectives on World Heritage and Development in Africa offers unique insights into local perspectives on World Heritage and development in Africa The book will be essential reading for academics students development partners and practitioners around the world who are interested in museums and heritage conservation development and the African continent Also the book will be useful in the preparation of nomination dossiers management plans development plans and in disaster risk management at WHS

Why We Kill Karl Kemp, 2024-03-02 Why do so many South Africans prefer taking the law into their own hands to relying on the police Why are those who do so often cheered or sympathised with Of the unprecedented 27 000 recorded murders in South Africa in 2022 at least 1 894 or 7 per cent were attributed to mob justice and vigilantism more than double the number from five years before In the first nine months of 2023 a further 1 472 mob justice deaths had already been registered Mob justice is nothing new but in recent years it has taken on an undeniably desperate furious edge From the breathtakingly violent Zandspruit massacre in May 2021 to the killings during the July unrest two months later to the march of Operation Dudula across the nation in 2022 vigilantism and the condoning of it has never before captured the zeitgeist of South Africa so sharply What has changed in the past few years and what does it augur for the future Following three recent cases of mob justice from the hellish metropolitan townships of Gauteng to the far flung bushveld of northern Limpopo and drawing on extensive research and interviews *Why We Kill* explores the roots realities and consequences of South Africa's current crisis of vigilantism

Rules of Law and Laws of Ruling Prof Dr Julia Eckert, Professor Franz von Benda-Beckmann, Professor Keebet von Benda-Beckmann, 2013-02-28

Offering an anthropological perspective this volume explores the changing relations between law and governance examining how changes in the structure of governance affect the relative social significance of law within situations of legal pluralism

The authors argue that there has been a re regulation rather than a de regulation propagated by a plurality of regulative authorities and this re regulation is accompanied by an increasing ideological dominance of rights talk and juridification of conflict Drawing on insights into such processes this volume explores the extent to which law is used both as a constitutive legitimisation of governance and as the medium through which governance processes take place Highlighting some of the paradoxes and the unintended consequences of these regulating processes and the ensuing dynamics Rules of Law and Laws of Ruling will be a valuable resource for researchers and students working in the areas of legal anthropology and governance
