Community Secondary Schools in Tanzania Elia Shabani Mligo, Devotha Lawrence Mshana, 2018-01-22 Community Secondary Schools are the majority secondary schools in Tanzania. These are schools built by community initiatives with the aim of helping more children acquire a secondary education. Despite this good intention, these schools face a number of challenges. One such challenge has to do with academic performance. This book investigates this challenge. It examines the factors that contribute to students' poor performance in the community secondary schools in Tanzania to discern the main factors contributing to their poor performance. Many factors contribute to students' poor performance, such as lack of support from parents on educational issues, teachers' and students' attitudes and perceptions on education, inadequate learning and teaching materials and resources, learning and teaching environments, as well as lack of adequate motivation for teachers and students. This book explores these challenges and proposes future prospects to make such schools have efficient performance in Tanzania and other places of the world they are found.

Advancing Africa's Sustainable Development Alain L. Fymat, 2018-11-14 While many African countries lag behind the rest of the industrialised world in scientific and medical research and development, the situation is progressively improving. This is why the Society for the Advancement of Science in Africa was established to contribute to economic advancement and sustainability through science research, education, and innovation. This book provides a selection of papers from the Advancement of Science in Africa's fourth annual conference. The conference was held under the overarching theme of science, technology, and innovation in Africa, with several important sub-themes including, but not limited to, improving health research and disease surveillance, education, collaborating in research responding to epidemic diseases with high mortality in Africa, and promoting women's interest in science careers. The collection illustrates how, although the chapter contributors come from various countries and universities representing their own academic research, they all share a common interest in advancing science, technology, and innovation in Africa.

Higher Education Pathways Ashwin,

Paul,Case, Jennifer M.,2018-12-14 In what ways does access to undergraduate education have a transformative impact on people and societies What conditions are required for this impact to occur What are the pathways from an undergraduate education to the public good including inclusive economic development These questions have particular resonance in the South African higher education context which is attempting to tackle the challenges of widening access and improving completion rates in a system in which the segregations of the apartheid years are still apparent Higher education is recognised in core legislation as having a distinctive and crucial role in building post apartheid society Undergraduate education is seen as central to addressing skills shortages in South Africa It is also seen to yield significant social returns including a consistent positive impact on societal institutions and the development of a range of capabilities that have public as well as private benefits This book offers comprehensive contemporary evidence that allows for a fresh engagement with these pressing issues
