Quality Management Implementation in Higher Education: Practices, Models, and Case Studies Sony, Michael, Karingada, Kochu Therisa, Baporikar, Neeta, 2019-08-02 Although initially utilized in business and industrial environments quality management systems can be adapted into higher education to assess and improve an institution's standards. These strategies are now playing a vital role in educational areas such as teaching learning and institutional level practices. However, quality management tools and models must be adapted to fit with the culture of higher education. *Quality Management Implementation in Higher Education Practices Models and Case Studies* is a pivotal reference source that explores the challenges and solutions of designing quality management models in the current educational culture. Featuring research on topics such as Lean Six Sigma distance education and student supervision, this book is ideally designed for school board members, administrators, deans, policymakers, stakeholders, professors, graduate students, education professionals, and researchers seeking current research on the applications and success factors of quality management systems in various facets of higher education.

University Community Engagement and Lifelong Learning Julia Preece, 2017-07-13 This book offers a conceptual re-think of how university community engagement functions as a lifelong learning resource for communities. While having a specific focus on the South African context, it has important implications for other universities which are concerned with their communities and makes a compelling argument for the university as a public good in spite of current trends towards marketization and commodification of higher education. The book draws on a theoretical framework of capabilities asset-based community development and the adult learning concept of dialogue to propose a model whereby the boundary walls of the university become metaphorically porous so that community members feel free to interact with the university as equal members of society. A historical outline of African universities is provided as well as an exploration of the evolution of terms for community engagement, service learning, and learning cities, and an examination of the policy and practice implications for the ideological model of a porous university.

The Transformative Power of Language Russell H. Kaschula, H. Ekkehard Wolff, 2020-09-10 A new study of the importance of language for sociocultural change in Africa from postcolonial to globally competitive knowledge societies.

Sustainable Engineering Israel Sunday Dunmade, Michael Olawale Daramola, Samuel Ayodele Iwarere, 2024-02-06 *Sustainable Engineering Concepts and Practices* provides insights into current perspectives on sustainable engineering research. It highlights the drivers, motivations, and challenges affecting the development and adoption of sustainable engineering in various sectors of the economy and how they impact sustainable development. Contributions from researchers representing multiple branches of engineering in academia, government laboratories, and industry present alternative approaches to traditional engineering practices. These approaches effect change, making the design, construction, production, and management of products, processes, and systems more environmentally friendly, socially beneficial, and economically profitable. The book will be a trusted reference for graduate students practicing

engineers and other professionals interested in developing or using sustainable products and systems **Can Themba** Siphiso Mahala, 2022-03-30 Mahala's biography gives insight into the life and writing of Can Themba 1924-1967, an iconic figure of the South African literary world and Drum journalist who died in exile. Can Themba: The Intellectual Tsotsi a Biography brings to life the iconic South African writer and journalist Can Themba 21 June 1924-8 September 1967, who died while exiled in Swaziland in 1967. Best known for his classic short story 'The Suit', Themba has been somewhat of an enigma with very little known about his personal life. This biography brings forth the voices of those who had personal interactions with him, shining the light on different aspects of his life including education, literature, journalism, and political fraternities. It features interviews with prominent individuals including his former students Abdul Bham Pitika Ntuli and Mbulelo Mzamane, journalistic mentees Juby Mayet and Joe Thloloe, as well as friends, colleagues, and contemporaries Parks Mangena, Peter Magubane, Jurgen Schadeberg, Don Mattera, and Nadine Gordimer, in addition to artists and academics Mothobi Mutloatse, Muxe Nkondo, and Njabulo S. Ndebele. Also featured in this biographical text are veteran political figures such as Mangosuthu Buthe, Lezi Lindiwe Mabuza, and Ahmed Kathrada. Themba's intellectual acumen, scholarly aptitude, and wit are some of his most revered characteristics amongst those who had interactions with him, either in person or through comprehensive reading of his works. Mahala is a master storyteller and deftly weaves together the threads of Themba's dynamic life. In this edifying biography, Mahala recreates the sparkle and pathos of Sophiatown of the 1950s and the Drum era. Can Themba's successes and failures, as well as his triumphs and tribulations, reverberate on the pages of this long-awaited biography.

Proceedings of The 6th MAC 2016 Group of authors, 2016-02-16 Proceedings of The 6th MAC 2016 The 6th Multidisciplinary Academic Conference in Prague 2016 **ECIE 2020 15th European Conference on Innovation and Entrepreneurship** Prof. Alessandro De Nisco, 2020-09-17 The European Conference on Innovation and Entrepreneurship has been running now for 15 years. This event has been held in Italy, Northern Ireland, France, Belgium, Portugal, and Finland, to mention some of the countries who have hosted it. D. Tewari, 2024-10-08 Education is a tool used to elevate citizens from poverty and unemployment and thus contributes to nation building and the promotion of a knowledge-based society in the information age. South Africa can take a cue from Asia and its rapid industrialization in the 1970s and its subsequent progressive education. The book is an illustrious historical and lucid discussion and commentary on the changing nature of education in the South African higher education sector, in particular. It covers a canvass of issues on higher education and the knowledge industry in the South African context and possible challenges that lie ahead. The twin

challenges of low enrollment and high dropout rates in South African universities especially at first year level are alarming and robbing the country of its economic potential It is the need of the hour to collaborate on an international level to spur knowledge creation and economic growth which South Africa so desperately needs The book is a welcome addition for policy makers and research scholars in higher education An Introduction to Community and Primary Health Care Diana Guzys,Rhonda Brown,Elizabeth Halcomb,Dean Whitehead,2017-06-27 An Introduction to Community and Primary Health Care prepares nursing and allied health students for practice **Fees Must Fall** Susan Booysen,2016-10-01 This book explores the student discontent a year after the start of the 2015 South African FeesMustFall revolt FeesMustFall the student revolt that began in October 2015 was an uprising against lack of access to and financial exclusion from higher education in South Africa More broadly it radically questioned the socio political dispensation resulting from the 1994 social pact between big business the ruling elite and the liberation movement The 2015 revolt links to national and international youth struggles of the recent past and is informed by black consciousness politics and social movements of the international left Yet its objectives are more complex than those of earlier struggles The student movement has challenged the hierarchical top down leadership system of university management and it s double speak of professing to act in workers and students interests yet entrenching a regressive system for control and governance University managements while on one level amenable to change have also co opted students into their ranks to create co responsibility for the highly bureaucratised university financial aid that stands in the way of their social revolution This book maps the contours of student discontent a year after the start of the FeesMustFall revolt Student voices dissect colonialism improper compromises by the founders of democratic South Africa feminism worker rights and meaningful education In depth assessments by prominent scholars reflect on the complexities of student activism its impact on national and university governance and offer provocative analyses of the power of the revolt
