Social-Ecological Systems (SES) Mohamed Behnassi,Himangana Gupta,Mahjoub El Haiba,Gopichandran Ramachandran,2021-07-12 This book contributes to the multidisciplinary debate about social ecological systems SES within the perspective of rethinking the nature of interaction between these systems especially in the Anthropocene Era Most chapters either deliberate on risk dynamics threatening current SES or stimulate thought processes to manage such risks and related negative implications After analyzing the main drivers of SES vulnerability the book highlights the shifts to be made to enhance the sustainability and resilience of these systems mainly the integration and restructuring of governance frameworks the reorganization of production and consumption systems far from conventional models based on consumerism the elaboration of mitigation adaptation and SDGs implementation measures from a co benefit perspective and the consideration of appropriate approaches and paradigms while elaborating and implementing response mechanisms This volume is relevant to researchers experts students practitioners and decision makers from different scales and spheres

Validating Technological Innovation David Coniam,Peter Falvey,2016-04-02 This book discusses Hong Kong s use of onscreen marking OSM in public examinations Given that Hong Kong leads the way in OSM innovation this book has arisen from a recognised need to provide a comprehensive coherent account of the findings of various separate but linked validation studies of onscreen public examinations in Hong Kong The authors discuss their experience of the validation process demonstrating how high stakes innovation should be fully validated by a series of research studies in order to satisfy key stakeholders

Food Systems Profile - Zimbabwe Food and Agriculture Organization of the United Nations,2022-08-03 Food systems are intimately linked to our lives through the food we eat our nutrition and health our livelihoods jobs and the environment and natural resources of the planet The main challenge for food systems is to produce nutritious food for all while preserving our biodiversity and environment and ensuring equitable distribution of wealth This Food Systems Profile provides a summary of the main food system issues in Zimbabwe and highlights potential solutions for their sustainable and inclusive transformation It is the result of a systemic analysis and stakeholders consultation that was part of a global assessment of food systems in over 50 countries following a joint initiative by the EU FAO and CIRAD which aims at catalyzing the sustainable and inclusive transformation of food systems

The Southern African Development Community in Zimbabwe Rich Mashimbye,2024-02-13 This book narrates the unravelling of Zimbabwe a country that was once considered an inspiration on the continent of Africa in terms of socioeconomic development Recognising that many factors contributed to the collapse of the nation and that this collapse was a process that occurred over a long period it looks at historical events and processes like the colonisation of the country and dispossession of the indigenous people and the misrule politically motivated violence and economic mismanagement that followed under Robert Mugabe as the pivotal moments that precipitated the subsequent fall of Zimbabwe The book also examines the role that the regional

intergovernmental organisation the Southern African Development Community SADC played in trying to help Zimbabwe overcome its security political and economic challenges Trade in Zimbabwe Richard Newfarmer, Martha Denisse Pierola, 2015-05-26 In Zimbabwe trade has been a driver of economic growth rising incomes and progressive empowerment of Zimbabweans through rising standards of living and the promise of better jobs Since 1980 through good years and bad years increases in exports have been positively associated with increases in national income Zimbabwe's location and resource base together with a low cost but relatively well educated labor force have endowed it with a naturally high trade ratio built on a diversified base that facilitates using trade as an engine of growth While trade volumes have rebounded smartly from the deep recession of 2007-2008 these do not offset other worrisome longer term trends Export growth during the last decade has been lacklustre and failed to drive high growth Agricultural exports other than tobacco have lost their once dominant role in the region and are no longer a source of diversification Manufacturing has withered in a continuing secular decline Zimbabwe's export basket has become less diversified and more dependent on a narrow range of mineral and to a lesser extent agricultural products In short exports have become less diversified less technologically sophisticated and less labor intensive and ever more dependent on a few large mining activities to provide foreign exchange and employment This report traces the roots of this poor performance to several policy issues poor predictability of macroeconomic policy and economic governance has created an unfavorable climate for private investment and trade a tariff structure that dampens export profitability industrial policies indigenization policy in particular that undermine investor confidence and inhibits private investment and finally competition limiting policies toward services that limit connectivity of Zimbabweans and raise trade costs The good news arising from the study is that the remedies for these policy shortcomings lie in Zimbabwean hands If the government were to adopt reforms that reconfigure economy wide incentives and trade and industrial policies it could promote sustained growth economic diversification and empowerment of poor people Social Welfare and Social Work in Southern Africa Ndangwa Noyoo, 2021-06-11 This book is written by Southern African social welfare social work social development social security and social policy academics practitioners and advocates who have varying degrees of experience The authors who contributed chapters to this book added their perspectives to ongoing debates about academic areas in the region Thus the book's primary objective is to discuss the development of social welfare and social work in Southern Africa In doing so it endeavours to contribute to the existing body of knowledge on social welfare and social work in the region The chapters are examined through different theoretical lenses and historical perspectives In this book African scholars academics and practitioners provide a deep and critical reflection of social welfare social work and related disciplines during the colonial and post colonial era a period characterised by a deliberate move by Africa's political administrations to focus on nation building and to attempt to make Africa a global player Despite being endowed with rich natural resources like minerals agriculture and solid family and extended family life the continent is weak globally Furthermore the book focuses on

the pre colonial period a golden thread running through the chapters The book discusses the colonial era when Western countries capture and oppression of Africa characterised the continent s history This book is an appropriate publication at this point in our history a resource that can be used to generate appropriate narratives and questions within the social welfare and social development sector particularly on delivery education and training

Why Mugabe Won Stephen Chan, Julia Gallagher, 2017-06-09 This book examines the key events personalities and wider socio political context that led to Mugabe s victory in the 2013 Zimbabwean elections

Gender, Protests and Political Change in Africa Awino Okech, 2020-07-03 This book brings together conceptual debates on the impact of youth hood and gender on state building in Africa It offers contemporary and interdisciplinary analyses on the role of protests as an alternative route for citizens to challenge the ballot box as the only legitimate means of ensuring freedom Drawing on case studies from seven African countries the contributors focus on specific political moments in their respective countries to offer insights into how the state society social contract is contested through informal channels and how political power functions to counteract citizen s voices These contributions offer a different way of thinking about state building and structural change that goes beyond the system based approaches that dominate scholarship on democratization and political structures In effect it provides a basis for organizers and social movements to consider how to build solidarity beyond influencing government institutions Chapters 3 5 and 6 are available open access under a Creative Commons Attribution 4 0 International License via link [springer.com](https://www.springer.com)

Political Economy of Post-apartheid South Africa Gumede, Vusi, 2017-05-05 The book made up of three parts covers a wide spectrum of political economy issues on post apartheid South Africa Although the text is mainly descriptive to explain various areas of the political economy of post apartheid South Africa the first and the last parts provide illuminating insights on the kind of society that is emerging during the twenty one years of democracy in the country The book discusses important aspects of the political history of apartheid South Africa and the evolution of post apartheid society including an important recap of the history of southern Africa before colonialism The text is a comprehensive description of numerous political economy phenomena since South Africa gained its political independence and covers some important themes that have not been discussed in detail in other publications on post apartheid South Africa The book also updates earlier work of the author on policy and law making land and agriculture education and training as well as on poverty and inequality in post apartheid South Africa thereby providing a wide ranging overview of the socio economic development approaches followed by the successive post apartheid administrations Interestingly three chapters focus on various aspects of the post apartheid South African economy economic policies economic empowerment and industrial development Through the lens of the notion of democratic developmental state and taking apartheid colonialism as a point of departure the book suggests that so far post apartheid South Africa has mixed socio economic progress The author s extensive experience in the South African government ensures that the book has policy relevance while it is also theoretically sound The text is useful for anyone who

wants to understand the totality of the policies and legislation as well as the political economy interventions pursued since 1994 by the South African Government **Development in Crisis** Rae Lesser Blumberg, Samuel Cohn, 2015-08-20

Development in Crisis Threats to human well being in the Global South and Global North is a provocative engaging and interesting collection of real world case studies in development and globalization focusing on under emphasized threats to growth and human welfare worldwide Created by two of America s top development sociologists it targets undergraduates graduates academics and development professionals Crises such as falling state capacity declining technological innovation increasing class inequality and persisting gender inequality are considered along with their economic and social consequences
