Intimate Alien David J. Halperin, 2020-03-24 A voyage of exploration to the outer reaches of our inner lives UFOs are a myth says David J Halperin but myths are real The power and fascination of the UFO has nothing to do with space travel or life on other planets It s about us our longings and terrors and especially the greatest terror of all the end of our existence This is a book about UFOs that goes beyond believing in them or debunking them and to a fresh understanding of what they tell us about ourselves as individuals as a culture and as a species In the 1960s Halperin was a teenage UFOlogist convinced that flying saucers were real and that it was his life s mission to solve their mystery He would become a professor of religious studies with traditions of heavenly journeys his specialty With *Intimate Alien* he looks back to explore what UFOs once meant to him as a boy growing up in a home haunted by death and what they still mean for millions believers and deniers alike From the prehistoric Balkans to the deserts of New Mexico from the biblical visions of Ezekiel to modern abduction encounters *Intimate Alien* traces the hidden story of the UFO It s a human story from beginning to end no less mysterious and fantastic for its earthliness A collective cultural dream UFOs transport us to the outer limits of that most alien yet intimate frontier our own inner space

Boys Abducted Abdulhamit Arvas, 2025-03-14 In *Boys Abducted* Abdulhamit Arvas explores the history of abducted boys in English and Ottoman literary and visual culture to examine the relationships between homoeroticism race and empire in the early modern period The popular literary trope of the abducted beautiful boy often eroticized as an exotic object of desire intersects with the historical phenomenon of vulnerable youths who were captured and exchanged within the global traffic in bodies Arvas offers a queer historicist analysis of a wide array of Ottoman and English texts and genres ranging from poetry drama and travelogue to chronicles maps and visual arts He shows how the boy in these representations crosses boundaries between nations and empires embodying the tensions and dissonances between the aestheticized eroticism of literary and cultural representations and the violent history of abductions conversions and enslavements In so doing Arvas presents complex parallels and connections between the two societies highlighting the circulation of sexual and racial discourses in imperial imaginings to uncover discursive formations and formulations of sexuality race and empire

The Devil's Chain Keely Stauter-Halsted, 2015-12-21 In the half century before Poland s long awaited political independence in 1918 anxiety surrounding the country s burgeoning sex industry fueled nearly constant public debate *The Devil s Chain* is the first book to examine the world of commercial sex throughout the partitioned Polish territories uncovering a previously hidden conversation about sexuality gender propriety and social class Keely Stauter Halsted situates the preoccupation with prostitution in the context of Poland s struggle for political independence and its

difficult transition to modernity She traces the Poles growing anxiety about white slavery venereal disease and eugenics by examining the regulation of the female body the rise of medical authority and the role of social reformers in addressing the problem of paid sex Stauter Halsted argues that the sale of sex was positioned at the juncture of mass and elite cultures affecting nearly every aspect of urban life and bringing together sharply divergent social classes in what had long been a radically stratified society She captures the experiences of the impoverished women who turned to the streets and draws a vivid picture of the social milieu that shaped their choices The Devil s Chain demonstrates that discussions of prostitution and its attendant disorders sexual deviancy alcoholism child abuse vagrancy and other related problems reflected differing visions for the future of the Polish nation

The System of Antichrist Charles Upton,2005 The System of Antichrist examines the present religious and cultural scene from the standpoint of traditional metaphysics and critiques the New Age spiritualities within their postmodern context Its many references to Rene Guenon and Frithjof Schuon also help introduce these important but little known traditionalist thinkers The book presents lore relating to the latter days of the present cycle from the vantage point of comparative religion drawing upon relevant doctrines from Buddhism Hinduism Judaism Christianity Islam Zoroastrianism and the Native American traditions It also speculates upon the social psychic and spiritual nature of that being known to Christianity Judaism and Islam as the Antichrist presenting him as both an individual and a system and warning those willing to be warned against the spiritual seduction and terror he represents and against the regime which will be and is the social expression of that seduction and that terror Finally in tracing the roots of Antichrist in the fallen nature of man the author sketches the particular quality of spirituality proper to apocalyptic times the dangers it faces the unique opportunities open to it And along the way he describes his own course from the spiritual revolution of the 1960s through the world of New Age spiritualities to the threshold of traditional esoterism and metaphysics As he says speaking of the angst that characterizes the modern world The specific medicine for the shock of despair is the deeper shock of meaning Nothing but the weight of eternity breaking through the thin brittle shell of the postmodern sky can set us on our feet

How the Other Half Looks Sara Blair,2018-06-05 How New York s Lower East Side inspired new ways of seeing America New York City s Lower East Side long viewed as the space of what Jacob Riis notoriously called the other half was also a crucible for experimentation in photography film literature and visual technologies This book takes an unprecedented look at the practices of observation that emerged from this critical site of encounter showing how they have informed literary and everyday narratives of America its citizens and its possible futures Taking readers from the mid nineteenth century to the present Sara Blair traces the career of the Lower East Side as a place where image makers writers and social reformers tested new techniques for apprehending America and their subjects looked back confronting the means used to represent them This dynamic shaped the birth of American photojournalism the writings of Stephen Crane and Abraham Cahan and the

forms of early cinema During the 1930s the emptying ghetto opened contested views of the modern city animating the work of such writers and photographers as Henry Roth Walker Evans and Ben Shahn After World War II the Lower East Side became a key resource for imagining poetic revolution as in the work of Allen Ginsberg and LeRoi Jones and exploring dystopian futures from Cold War atomic strikes to the death of print culture and the threat of climate change How the Other Half Looks reveals how the Lower East Side has inspired new ways of looking and looking back that have shaped literary and popular expression as well as American modernity
