Waldron, 2014-05-16 Over the last decade the educational context for students with disabilities has significantly changed primarily as a result of mandates contained in NCLB and IDEA The purpose of this book is to summarize the research literature regarding how students might be provided classrooms and schools that are both inclusive and effective Inclusive schools are defined as places where students with disabilities are valued and active participants in academic and social activities and are given supports that help them succeed Effectiveness is addressed within the current movement toward multi-tiered systems of support and evidence-based practices that meet the demands of high-stakes accountability Alternative Futures in Special Education James John Gallagher, Bluma Beryl Weiner, 1986 **Educating Young Children With and Without Exceptionalities** Tachelle Banks, Festus E. Obiakor, Jessica Graves, Anthony F. Rotatori, 2019-02-01 Early childhood education ECE has always been intertwined with the use of developmentally appropriate practice DAP To support excellence in ECE it is critical how the knowledge about individual children and child development principles combined with the knowledge of effective early learning practices Effective early childhood education involves an interdisciplinary collaborative process that is influenced by many factors We present these aforementioned realities in *Educating Young Children With and Without Exceptionalities New Perspectives* In addition we argue that general and special educators need to focus on applying new knowledge to better address critical

issues that advance the field of educator preparation and improve educational outcomes for young children Early childhood research confirms the need for intensive intervention and remedial education we need to avoid approaches that are too little or too late Also proven to yield positive results for children are practices familiar to early childhood educators These practices include relationship based teaching and learning partnering with families adapting teaching for children from different backgrounds and for individual children active meaningful and connected learning and smaller class sizes Evidence of the benefits of these practices suggests that they should be extended more widely into the elementary grades
