

Summer Break Project: Let's Have a Blast

The Model Rocket Club is having a competition. At the Let's Have a Blast Summer Showdown, several of our friends plan to enter their rockets and hope to take first prize.

All rockets are launched from the ground, and the height of the rockets over time can be modeled by the function $h(t) = V_0 t - 0.5gt^2$, where V_0 represents

Resources in Education , 1999-10 War Stories from Applied Math Robert Fraga, 2007 These projects are adaptations of transcripts made at a workshop at Marquette University in Milwaukee WI in 1996 This workshop brought together four mathematicians representatives from industry and an audience of mathematicians interested in trying out the ideas presented to them **Some Tapas of Computer Algebra** Arjeh M. Cohen, Hans Cuypers, Hans Sterk, 2013-03-09 In the years 1994 1995 two EIDMA mini courses on Computer Algebra were given at the Eindhoven University of Technology by apart from ourselves various invited lecturers EIDMA is the Research School Euler Institute for Discrete Mathematics and its Applications The idea of the courses was to acquaint young mathematicians with algorithms and software for mathematical research and to enable them to incorporate algorithms in

their research A collection of lecture notes was used at these courses When discussing these courses in comparison with other kinds of courses one might give in a week s time Joachim Neuberger referred to our courses as tapas This denomination underlined that the courses consisted of appetizers for various parts of algorithmic algebra indeed we covered such spicy topics as the link between Gröbner bases and integer programming and the detection of algebraic solutions to differential equations As a collection the notes turned out to have some appeal of their own which is the main reason why the idea came up of transforming them into book form We felt however that the book should be distinguishable from a standard textbook on computer algebra in that it retains its appetizing flavour by presenting a variety of topics at an accessible level with a view to recent developments *Summaries of Projects Completed in Fiscal Year ...* ,1977
