Felix Klein David E. Rowe, 2025-05-29 This book presents a historical account of Felix Klein's Comparative Reflections on Recent Research in Geometry 1872 better known as his Erlangen Program Originally conceived and written when Klein was collaborating with Sophus Lie this bold essay initially made little impression on contemporary researchers Decades later however it eventually became a famous classic Eminent mathematicians hailed Klein's main message the role of invariants of transformation groups in geometry as presaging major developments in mathematics and physics The first part of this book focuses on the prehistory surrounding Klein's Erlangen Program stressing the motivations that led Klein to write it The core of the book Part II then presents a new translation of Klein's original text followed by detailed textual analysis aimed at guiding the reader through its rather terse and opaque prose Part III deals with its complicated reception history treated in four periods spanning the years from 1872 to 1930 This culminated during Klein's lifetime with his efforts to promote the Erlangen Program as a framework for interpreting Einstein's theory of relativity After his death in 1925 the viability of this framework became a contentious issue among leading differential geometers Part IV looks back on the transformations in mathematics that led to a modernized interpretation of Klein's message The book also explores in depth how the growing fame of the Erlangen Program undermined Klein's friendship with Sophus Lie leading to a dramatic public break between them in 1893 Beyond the Erlangen Program itself this book deals with many of Felix Klein's other works As an introduction to a largely forgotten world of ideas this study will appeal not only to experts but also to graduate students and all those with a serious interest in the history of modern mathematics The School Discipline Consensus Report CSG Justice Center, The School Discipline Consensus Report presents a comprehensive set of consensus based and field driven recommendations to improve conditions for learning for all students and educators better support students with behavioral needs improve police schools partnerships and keep students out of the juvenile justice system for minor offenses More than 100 advisors representing policymakers school administrators teachers behavioral health professionals police court leaders probation officials juvenile correctional leaders parents and youth from across the country helped develop more than two dozen policies and 60 recommendations to keep more students in productive classrooms and out of court rooms *Reading and Writing Strategies for the Secondary Mathematics Classroom in a PLC at Work®* Daniel M.
