The Ripple Effect Ken Coleman, 2012-03-14 The Ripple Effect by Ken Coleman Asks one of the most controversial and important questions of our time What do we do with a child that commits murder A cold blooded murder is committed in a sleepy quiet North Carolina town The Ripple Effect explains the character of a man is not in the way he acts It's in the way he reacts even more so the way he reacts to tragedy Because in one moment in time through controversy and the court of public opinion everything can change The story explores the relationship of a solid Godly family that breaks as well as a broken family that find their way back together Sterling Sharpe the suave and handsome defense attorney uses the event to rekindle past relationships while the urban and gritty talk show host Great Dane uses the controversy to gain national popularity The riveting tale is not so much about true crime as much as it is real life Website www.kencoleman.me Southrnauthor aol com

SENCOs and parents who are supporting autistic learners aged 11-16 **Handbook of Clinical Behavior Therapy with Adults** Alan S. Bellack, Michel Hersen, 2012-12-06 Despite the occasional outcries to the contrary the field of behavior therapy is still growing and the asymptote has not been reached yet The umbrella of behavior therapy continues to enlarge

and still is able to encompass new theories new concepts new research new data and new clinical techniques Although the number of new behavioral journals now has stabilized we still see a proliferation of books on the subject In the past few years however we have seen considerable specialization within behavior therapy No longer is it possible to be a generalist and remain fully abreast of all the relevant developments Thus we see behavior therapists who deal with adults those who deal with children those whose specialty is hospital psychiatry and those who see themselves as practitioners of behavioral medicine Even within a subarea such as behavioral medicine specialization runs supreme to the extent that there are experts in the specific addictions adult medical problems and child medical problems Given the extent of specialization there are numerous ways to skin the proverbial cat We therefore have chosen to look at the contemporary work in behavior therapy that is being carried out with adults in part of course because of our long standing interest in this area as teachers researchers and clinicians In so doing we have chosen to highlight the clinical aspects of the endeavor but not at the expense of the rich research heritage for each of the specific adult disorders
