Chokepoint Capitalism Rebecca Giblin, Cory Doctorow, 2022-09-27 A call to action for the creative class and labor movement to rally against the power of Big Tech and Big Media. Corporate concentration has breached the stratosphere as have corporate profits. An ever-expanding constellation of industries are now monopolies where sellers have excessive power over buyers or monopsonies where buyers hold the whip hand over sellers or both. In *Chokepoint Capitalism*, scholar Rebecca Giblin and writer and activist Cory Doctorow argue we're in a new era of chokepoint capitalism with exploitative businesses creating insurmountable barriers to competition that enable them to capture value that should rightfully go to others. All workers are weakened by this, but the problem is especially well illustrated by the plight of creative workers. From Amazon's use of digital rights management and bundling to radically change the economics of book publishing to Google and Facebook's siphoning away of ad revenues from news media and the Big Three record labels' use of inordinately long contracts to up their own margins at the cost of artists, chokepoints are everywhere. By analyzing book publishing and news, live music and music streaming, screenwriting, radio, and

more Giblin and Doctorow deftly show how powerful corporations construct anti competitive flywheels designed to lock in users and suppliers make their markets hostile to new entrants and then force workers and suppliers to accept unfairly low prices In the book s second half Giblin and Doctorow then explain how to batter through those chokepoints with tools ranging from transparency rights to collective action and ownership radical interoperability contract terminations job guarantees and minimum wages for creative work Chokepoint Capitalism is a call to workers of all sectors to unite to help smash these chokepoints and take back the power and profit that s being heisted away before it s too late *The Palgrave Handbook of Critical Music Industry Studies* David Ardit, Ryan Nolan, 2024-09-28 The Handbook of Critical Music Industry Studies provides students and researchers with the means to think about how the performance recording and publishing of music could be if we do things differently People are hungry for a more equitable music performance and recording system The industry exudes patriarchy white supremacy cultural imperialism ableism and worker exploitation In the context of gendered e g MeToo and TimesUp and racialized e g Black Lives Matter inequity rampant precarity and casualization and modes of musical dissemination that are changing faster than policymakers and regulatory bodies can keep up with the timing for assembling such an interdisciplinary collection could not be more appropriate Essays in this handbook will tackle power structures at root in the music industry and the academic study of the field Topics covered include the politics of representation and power in the global music industries the labor of music music as media including data and algorithmic culture and copyright intellectual property among others Chapter 35 is available open access under a Creative Commons Attribution 4 0 International License via link [springer.com](https://www.springer.com)
