Information Trapping Tara Calishain, 2006-12-07 How many times have you run a Google search that resulted in thousands of results With over 8 billion pages online and more posted every day the Web more than likely contains the

information you're looking for if only you could find it. In *Information Trapping: Real Time Research on the Web*, Internet search engine expert Tara Calishain makes researching more efficient and rewarding for anyone for whom the Web is an indispensable tool: academics, journalists, scientists and professionals as well as bloggers, genealogists and hobbyists. She does so by teaching the latest techniques for building automated information gathering systems. As an alternative to the typical one-time search for information, Tara demonstrates how readers can use RSS feeds, page monitoring tools and other software to set up information streams of many different data types: from text to multimedia to conversations for capture and review.
