The Genesis of Roman Architecture John North Hopkins, 2016-02-09 This groundbreaking study traces the development of Roman architecture and its sculpture from the earliest days to the middle of the 5th century BCE Existing narratives cast the Greeks as the progenitors of classical art and architecture or rely on historical sources dating centuries after the fact to establish the Roman context Author John North Hopkins however allows the material and visual record to play the primary role in telling the story of Rome's origins synthesizing important new evidence from recent excavations Hopkins's detailed account of urban growth and artistic political and social exchange establishes strong parallels with communities across the Mediterranean From the late 7th century Romans looked to increasingly distant lands for shifts in artistic production By the end of the archaic period they were building temples that would outstrip the monumentality of even those on the Greek mainland The book's extensive illustrations feature new reconstructions allowing readers a rare visual exploration of this fragmentary evidence

The Architecture of Roman Temples John W. Stamper, 2005-02-16 This book examines the development of Roman temple architecture from its earliest history in the sixth century BC to the reigns of Hadrian and the Antonines in the second century AD John Stamper analyzes the temples formal qualities the public spaces in which they were

located and most importantly the authority of precedent in their designs He also traces Rome s temple architecture as it evolved over time and how it accommodated changing political and religious contexts as well as the affects of new stylistic influences
