Her quest for a cure. Case histories of those who have triumphed over MS. The real causes of MS. How to develop a personal treatment plan. Everything you need to bring about recovery including a detailed and effective self-help treatment protocol. Delicious recipes and recommended foods with two weeks of sample menus. A five-week nutritional makeover. Recommended supplements and a daily sample supplement schedule. A list of recommended products. User-friendly charts and resources. *Starving into Remission: Alzheimer's, Parkinson's and Multiple Sclerosis Nutritional Integrative Therapies* James C. Tibbetts, 2016-11-13 Alzheimer's, Parkinson's, and MS can be brought into permanent remission on a Living Foods nutritional therapy approach. As a nutritional lifestyle, these diseases can be stopped and kept at a distance once they are put into remission through this Live Food nutrition therapy. This book presents real people, some cured and some not; it is about clinical experience, journal studies, testimonials, and advanced nutritional understandings. This work is about five years of research. It involves a major lifestyle change: moving into a Live Food or raw vegan diet and doing juice fasting, smoothies, and juicing. Having a positive spiritual approach and exercise routine is also helpful. The case studies and testimonials are part of the evidence that these neurodegenerative diseases can be put into complete remission. **Baby Maker** Barbara Rodgers, NC, BCHN, 2018-10-16 For most couples, conception and a healthy pregnancy often take planning, timing, and a lot of patience, even for the most fertile. Throw in some pre-existing health conditions, a few genetic hurdles passed on from parents and grandparents, and you may find you are one of the approximately 7.5 million women in the U.S. dealing with infertility. In *Baby Maker*, Barbara Rodgers shares science-based research and facts that clearly describe the critical role nutrition can play on fertility, the growth of a fetus, and even genetic synthesis in a newborn baby. *Baby Maker* offers comprehensive options and a step-by-step plan for improving fertility for men and women, strengthening the ability of a pregnant mom to carry to term, as well as a plan to support a mother's health during pregnancy. Finally, there is basic information offered on how to jumpstart mom's nutritional health immediately following delivery. This book offers hope to the millions of women who struggle with fertility. Barbara knows all too well the positive effect nutrition and lifestyle changes can make on the human body, as she did after dealing with the challenging, debilitating symptoms of MS for several years and eventually healing from them. Barbara Rodgers, NC, BCHN is honored to be a part of your journey towards health, wellness, and parenthood. **Curing the Incurable...** Stefan Cairns PhD, 2023-10-03 My intention in writing this book is to help you to enjoy a healthier and less toxic life, and you will be motivated to act on my observations and make the adjustments for a permanent lifestyle change. At the very least, you will have some important additional information to better understand why you might not be as healthy as you would like when you end up eventually

ignoring or only minimally following some of the most important guidelines in this book The following observations are all based on my years working for and studying Dr Hal Huggins who was the world leading authority in biological dentistry and body chemistry rebalancing I must also point out that as I don't know anything about you the reader I am not making recommendations these are just my observations from personal experience The title is referring to my own personal circumstances I'm not promoting or promising anything just explaining who I am when I was diagnosed with the horrendous disease MS and how I kicked it's butt out of the temple I call me Stefan
