

PRESS RELEASE

ANNA NICOLE SMITH 39 year old

February 9, 2007

Anna Nicole Smith was found unresponsive in her room at the Seminole Hard Rock Hotel on February 8, 2007, sometime after 1:00 pm. According to the information received, Ms Smith was sick with symptoms of stomach flu for several days prior. The Seminole Police Department was notified at about 1:45 of the event. CPR was done by one of her body guards. The patient was treated by paramedics and transported to Hollywood Memorial Hospital where she was declared deceased at 2:45 pm.

The Medical Examiner's Office was notified and assumed jurisdiction over the deceased according to Florida Statutes because of sudden, unexpected and unexplained death.

A complete autopsy was performed on February 9, 2007 by Dr. Joshua A. Perper, Chief Medical Examiner and Dr. Gertrude Juste, Associate Medical Examiner. The autopsy excluded the possibility that physical trauma (such as firearm trauma, sharp weapon injuries, blunt force trauma, or mechanical asphyxia) contributed to or hastened the death. A minor bruise on the left upper back was most likely related to a reported fall in the bathroom several days ago.

The autopsy revealed a moderately enlarged liver and subtle findings in the heart and gastrointestinal system which will have to be verified microscopically. The stomach contains a small amount of blood consistent with terminal shock.

At this time no determination has been made as to the Cause and Manner of death of Ms Anna Nicole Smith.

Further investigation in process in this matter includes:

- Extensive review of past medical records.
- Interview with witnesses that accompanied Ms Anna Nicole Smith to Florida and/or witnessed her condition and terminal collapse.
- Further cardiovascular and neuropathological examination of heart, brain and spinal cord.
- Bacterial and viral cultures of heart, lung, cerebro-spinal fluid and other body fluids.
- Chemical analysis of eye fluid.
- Extensive microscopic examination of sampled body tissues.

It is estimated that the results of the multiple tests and the integration of the clinical pathological and laboratory data will take several weeks (3-5).

In view of the significant public interest in this unfortunate death, the Medical Examiner's Office will make optimal efforts to expedite the determination of Cause and Manner of death without affecting the thoroughness and reliability of the investigation.

Anna Autopsy Death Nicole Report Smith:

The Death Proclamation of Generation X Maxim W. Furek, 2008 Taking a hard penetrating look at the despondent heart of darkness of the 1990s *The Death Proclamation of Generation X* is a probing chronicle of America's thirteenth generation caught between the idealistic Baby Boomers and the well-financed Generation Y. Generation X was scapegoated and dismissed without the chance to prove themselves. Blending tenets of psychology, sociology and cultural anthropology, author Maxim Furek offers a unique perspective to the post-modernist discourse by exploring the impact that personalities such as Andrew Wood, Kurt Cobain, Layne Staley, River Phoenix, Marilyn Manson and Anna Nicole Smith left on that generation. Evaluating the psychological and sociological variables of goth, grunge and heroin, Furek weaves a dark tapestry of this unique demographic group born between 1965 and 1978. *The Death Proclamation of Generation X* pieces together the complexities of Generation X to acknowledge their individuality, honor their existence and to celebrate their future. They are a group with their own identity of music, attitude and culture. The resilience of Generation X is but another example of the power of this special collection of people, a group of highly skilled and adaptive individuals. *The IPINIONS Journal*

Anthony Hall, 2008-04 ANTHONY LIVINGSTON HALL COMMENTS ON Bush's legacy of support for Africa. I was dismayed by the number of people who refused to believe that Bush had done more for Africa than any other US president notwithstanding testimonials I proffered from renowned crusaders for African development like Sir Bob Geldof and Bono to support this claim. Oprah's school for African girls. I applaud Oprah for founding this school for the same reason I applauded Madonna for adopting that African boy. She is fulfilling a need which honors our shared humanity in a way that few of us can afford or are even conscientious enough to do. Native Americans ethnically cleansing blacks from their tribes. Indeed I do marvel at this curious thing that they would rather be condemned as racists for expelling blacks than be criticized as niggards for hoarding their gambling loot. French President Nicolas Sarkozy's love affair with the US. Sarkozy displays a Blairite affinity for America that any self-respecting Frenchman must find particularly galling. Bungled terrorist attacks in London and Glasgow. Wannabe suicide bombers rammed their jeep packed with explosives into Glasgow Airport on Saturday morning shouting Allah Allah Allah, no doubt hoping to go off in a blaze of glory for eternal assignments with their apocryphal 72 virgins. Steroids in baseball. In fact, steroid use has flourished in baseball and other professional sports pursuant to an open conspiracy among players and team owners to feed the gladiatorial lust of fans who want to see bigger, stronger and faster cyborgs perform for their atavistic enjoyment. *The Life and Deaths of Cyril Wecht* Cyril H. Milman PhD, 2020-10-29 Carrie Fisher also known as Princess Leia from Star Wars had been abusing cocaine and other pharmaceuticals for many years so when it was announced that she died from sleep apnea I was skeptical A more plausible explanation would have been that she died from a drug overdose A review of the medical examiner's report revealed that the Fisher family refused to give permission for an autopsy and toxicology tests to be done Constrained by these limitations the coroner labeled the manner of death undetermined

FORENSICS The Science behind the Deaths of Famous People is an analysis and description of how coroners determine the cause and manner of death An investigation of twenty three deaths of famous people was conducted based on a review of publicly available autopsy and toxicology reports as well as published scientific and lay articles Drug use was implicated in 70 percent of the deaths Four celebrity deaths were the result of suicide or homicide Four others were from natural causes
