attempt to provoke emotions of dread terror and horror through their representations of the monstrous and the formal strategies employed In this inquiry he examines definitions of the genre and its metafictional nature Roche ends with a meditation on the extent to which the technical limitations of the horror films of the 1970s actually contribute to this disturbing quality Moving far beyond the genre itself Making and Remaking Horror studies the redux as a form of adaptation and enables a more complete discussion of the evolution of horror in contemporary American cinema Dragon Drive Volume I Wayne Dwight Richards,2009-04 Patrick Henry the world s greatest information baron is coming top Diablo Keep to begin resurrecting the World Wide Web **Marketing Science Fictions** Robert Cluley,2024-12-19 This book explores data science in practice through an ethnographic study at a global marketing technology and research firm The book shows that while businesses have embraced data science methods to understand markets and consumers in practice they produce too much information Consequently they must be combined with creative practices that simplify and make sense of analytics Cluley shows that in the age of data science business is increasingly artistic In this case marketing science is more like marketing science fiction This is essential reading for understanding contemporary data driven business and marketing as well as social and economic relations in the age of surveillance capitalism with lessons for academics and students of marketing technology and data science **Mental Illness in Young Adult Literature** Kia Jane Richmond,2018-12-07 This book explores how mental illness is portrayed in 21st century young adult fiction and how selected works can help teachers librarians and mental health professionals to more effectively address the needs of students combating mental illness Mental Illness in Young Adult Literature Exploring Real Struggles through Fictional Characters highlights American young adult literature published since the year 2000 that features characters grappling with mental illness Chapters focus on mental disorders identified by the most recent Diagnostic and Statistical Manual of Mental Disorders DSM 5 including anxiety depression bipolar disorder schizophrenia ADHD and OCD Each chapter begins with a description of a mental illness that includes its prevalence demographic trends symptoms related disorders and treatment options before examining a selection of young adult texts in depth Analysis of the texts explores how a mental illness manifests for a particular character how that character perceives him or herself and is perceived by others and what treatment or support he or she receives The connections between mental illness and race ethnicity gender sexuality and identity are examined and relevant research from education psychology and adolescent health is thoroughly integrated Each chapter also provides a list of additional readings An appendix offers strategies for integrating young adult literature into health curricula and other programs
