Project Animal Farm Sonia

Faruqi,2015-07-15 Sonia Faruqi had an Ivy League degree and a job on Wall Street But when the banking industry collapsed she found herself on a small organic dairy farm that would change her life for the better although it didn t seem that way in the beginning First she had to come to grips with cows shocked into place cannibal chickens and free range turkeys that went nowhere But there were bright lights as well happy frolicking calves on a veal farm and farmers who cared as much about the animals as their pocketbooks What started as a two week volunteer vacation turned into a journey that reached into the darkest recesses of the animal agriculture industry Surrounded by a colorful cast of characters Faruqi s quest to discover the truth about modern agribusiness took her around the world Lively edgy and balanced Project Animal Farm sheds light on the international agribusiness with the ultimate goal of improving the lives of farm animals here at home Using

her finance background to forecast the future of agriculture Faruqi discusses the changes we need to make using our forks and our votes

Utilisation and conservation of farm animal genetic resources Kor Oldenbroek, 2023-08-28 The genetic diversity comprised in farm animal species and breeds is an important resource in livestock systems For several reasons within the different species used for food production only a few breeds are developed towards high output breeds fitting in high input systems In this process many breeds are set aside from the food producing livestock systems These breeds will be faced with extinction unless new functions for these breeds are found This is a real threat for the genetic diversity within species This book is intended to give insight into the issues of the utilisation and conservation of farm animal genetic resources towards a broad group of readers interested in these subjects The insight is presented as applications of population molecular and quantitative genetics that can be used to take appropriate decisions in utilisation and conservation programmes A previous edition of this book is a key resource in courses worldwide and cited in many scientific publications The first two chapters discuss the decisions to be made in utilisation and conservation Chapter 3 surveys the different ways in which the diversity we observe within a species can be characterised Chapter 4 illustrates recent results using this theory for utilisation and conservation purposes Chapters 5 6 and 7 give theoretical backgrounds necessary to make decisions and chapters 8 and 9 present the operation and practical implications of selection and conservation schemes
