selective breeding has changed them for better and worse The mixed blessings of government support and subsidisation The

story of abuse of animals rights and welfare is dealt with in detail as are ideas of respect and compassion and the inadequate ways in which animals are fed The author describes a broken marketing system for livestock products and also considers organic farming Lastly in the present environment of agricultural upheaval in Europe how can science and technology take animal farming forward What are the chances of the wrongs being righted what will tomorrow s farmed animals be for
