

An abstract painting featuring two profiles of human faces facing each other. The faces are rendered in a style that blends with the background, which is a vibrant, textured wash of red, orange, and yellow. The lighting is dramatic, with a bright yellow light source visible between the faces, creating a silhouette effect and highlighting the contours of the profiles. The overall mood is contemplative and artistic.

some attributions may have been lost We could not resist retelling some amusing anecdotes even when we suspect that they have no proven historical basis As to the mathematicians listed in our account we admit to being colour and gender blind we have not attempted a balanced distribution of the mathematicians listed to meet today s standards of political correctness Philosophy Both authors having wide philosophical interests this text contains perhaps more philosophical asides than other books on the history of mathematics For example we discuss the relevance to mathematics of the pre Socratic philosophers and of Plato Aristotle Leibniz and Russell We also have vi Preface presented some original insights
