Comprehensive Healthcare Simulation: Anesthesiology Bryan Mahoney, Rebecca D. Minehart, May C. M.

Pian-Smith, 2019-12-17 This book functions as a practical guide for the use of simulation in anesthesiology. Divided into five parts, it begins with the history of simulation in anesthesiology, its relevant pedagogical principles, and the modes of its employment. Readers are then provided with a comprehensive review of simulation technologies as employed in anesthesiology and are guided on the use of simulation for a variety of learners: undergraduate and graduate medical trainees, practicing anesthesiologists, and allied health providers. Subsequent chapters provide a how-to guide for the employment of simulation across a wide range of anesthesiology subspecialties, before concluding with a proposed roadmap for the future of translational simulation in healthcare. The Comprehensive Textbook of Healthcare Simulation: Anesthesiology is written and edited by leaders in the field and includes hundreds of high-quality color surgical illustrations and photographs. **Written**

Registry Exam Review for Respiratory Care William V. Wojciechowski, 2001 This examination review book provides a personalized study plan for students preparing for the National Board for Respiratory Care (NBRC) Written Registry Examination. It presents an exhaustive review of the test matrix with over 850 questions and analyses based on the 1999 Examination Matrix. A chapter on test-taking strategies is designed to build self-confidence and explains how to think the NBRC way. Each question contains a detailed analysis about the question and a list of references for further study. Detailed scoring forms are available throughout the book to assist candidates in evaluating strengths and weaknesses and for assessing progress while working through the book. Each question is also linked to a specific examination matrix item, allowing candidates to become familiar with the test matrix. Computer software allows the students to practice and review material in a similar environment that mimics the actual examination.
