Document A201™ – 2017 Instructions

General Conditions of the Contract for Construction

GENERAL INFORMATION

Purpose. AIA Document A201™-2017, General Conditions of the Contract for Construction, is considered the keystone document of the Conventional (A201) family of documents because it provides the terms and conditions under which the **Owner**, **Contractor**, and **Architect** will work together during the building construction process. When adopted into an Owner-Contractor agreement, AIA Document A201-2017 provides an essential component of the construction contract. In addition, AIA Document A201-2017 is incorporated by reference into the Owner-Architect and Contractor-Subcontractor agreements in the A201 family of documents, thus establishing a common basis for the primary and secondary relationships on the typical medium to large size, or complex (involving fast-track scheduling or multiple bid packages) construction project.

For construction projects of limited scope and complexity, document users may wish to consider using AIA Document A101™-2017, Standard Abbreviated Form of Agreement Between Owner and Contractor. For an even smaller project that is modest in size and brief in duration, users may wish to consider AIA Document A191™-2017, Standard Short Form of Agreement Between Owner and Contractor.

Related Documents. AIA Document A201-2017 is incorporated by reference into three AIA Owner-Contractor agreements: A101™-2017, A191™-2017, and A310™-2017; into A401™-2017, Agreement Between Contractor and Subcontractor; and into two AIA Owner-Architect agreements: B101™-2017 and B310™-2017. AIA Document A201-2017 may be adopted by indirect reference into the Architect-Consultant agreement when the prime Agreement between the Owner and Architect adopts AIA Document A201-2017 and it is in turn adopted into the Architect-Consultant agreement, AIA Document C401™-2017. Such incorporation by reference is a valid legal drafting method, and documents so incorporated are generally interpreted as part of the respective contract.

The Contract Documents, including AIA Document A201-2017, record the Contract for Construction between the Owner and the Contractor. The other Contract Documents are the Owner-Contractor agreement, Supplementary Conditions, Drawings, Specifications, and Modifications. Although the AIA does not produce standard documents for Supplementary Conditions, Drawings or Specifications, a variety of model and guide documents are available, including AIA's MASTERSPEC and AIA Document A301™, Guide for Supplementary Conditions. As mentioned above and diagrammed below, AIA Document A201-2017 is a vital document used to allocate the proper legal responsibilities of the parties.

On construction projects, contractual relationships are created between owners, architects, architects' consultants, contractors, subcontractors, sub-subcontractors, and others down through the multiple tiers of participants. If custom-drafted agreements were written in isolation for each of these contractual relationships, the problems of overlaps and gaps in the numerous participants' responsibilities could lead to mass confusion and chaos. To prevent and solve this problem, the construction industry commonly uses standardized general conditions, such as AIA Document A201-2017, for coordinating those many relationships on the project by its adoption into each contract.
