**Absolute War** Mark Hewitson, 2017 Wars have played a fundamental part in modern German history Although infrequent conflicts involving German states have usually been extensive and often catastrophic constituting turning points for Europe as a whole Absolute War is the first in a series of studies from Mark Hewitson that explore how such conflicts were experienced by soldiers and civilians during wartime and how they were subsequently imagined and understood during peacetime from Clausewitz and Kleist to Junger and Adorno Without such an understanding it is difficult to make sense of the dramatic shifts characterising the politics of Germany and Europe over the past two centuries The studies argue that the ease or reluctance with which Germans went to war and the far-reaching consequences of such wars

on domestic politics were related to soldiers and civilians attitudes to violence and death as well as to long term transformations in contemporaries conceptualisation of conflict Absolute War reassesses the meaning of military conflict for the millions of German subjects who were directly implicated in the Revolutionary and Napoleonic Wars Based on a re reading of contemporary diaries letters memoirs official correspondence press reports pamphlets treatises plays and cartoons this volume refocuses attention on combat and conscription as the central components of new forms of mass warfare It concentrates in particular on the impact of violence killing and death on many soldiers and some civilians experiences and subsequent memories of conflict War has often been conceived of as an act of violence pushed to its utmost bounds as Clausewitz put it but the relationship between military conflicts and violent acts remains a problematic one

*The Oxford Handbook of the History of Communism* S. A. Smith,2014 Draws on documentation released since the fall of the Soviet Union to offer a global history of communism in the twentieth century *Leo Strauss* Leo Strauss,2012-02-01

This translation of eighteen virtually unknown early publications provides access for the first time to the origins of Leo Strauss's thought in the intellectual life of the German Jewish renaissance in the 1920s. Themes range from the Enlightenment critique of the religion of Spinoza and the anti-critique of Jacobi to the political Zionism of Herzl and the cultural Zionism of Buber and Ahad Ha'am. The essays and reviews reprinted in this volume document a youth caught in the theological-political conflict between the irretrievability of premodern religion and the disenchantment of honest atheism, an impossible alternative that precipitated Strauss to seek out the possibility of a return to the level of natural ignorance presupposed in Socratic political philosophy.
