fiction helps us face problems that threaten the very existence of humankind by giving us the emotional distance to see our current situation from afar separated in our imaginations through time space or circumstance Extrapolating from contemporary science fiction allows a critique of modern society imagining more life affirming alternatives In this collection ecocritics from five continents scrutinize science fiction for insights into the fundamental changes we need to make to survive and thrive as a species Contributors examine ecofeminist themes in films such as Avatar Star Wars and The Stepford Wives as well as television series including Doctor Who and Westworld Other scholars explore an internationally diverse group of both canonical and lesser known science fiction writers including Oreet Ashery Iraj Fazel Bakhsheshi Liu Cixin Louise Erdrich Hanns Heinz Ewers Larissa Lai Ursula K Le Guin Chen Qiufan Mary Doria Russell Larissa Sansour Karen Traviss and Jeanette Winterson Ecofeminist Science Fiction explores the origins of human caused environmental change in the twin oppressions of women and of nature driven by patriarchal power and ideologies Female embodiment is examined through diverse natural and artificial forms and queer ecologies challenge heteronormativity The links between war and environmental destruction are analyzed and the capitalist motivations and means for exploiting nature are critiqued through postcolonial perspectives *What Do I Read Next?* Rafaela Castro, 1997 Surveys works for children and adults

Modern Dystopian Fiction and Political Thought Adam Stock, 2018-10-26 Over the past few years dystopia has become a word with increasing cultural currency This volume argues that we live in dystopian times and more specifically that a genre of fiction called dystopia has above others achieved symbolic cultural value in representing fears and anxieties about the future As such dystopian fictions do not merely mirror what is happening in the world in becoming such a ready referent for discussions about such varied topics as governance popular culture security structural discrimination environmental disasters and beyond the narrative conventions and generic tropes of dystopian fiction affect the ways in which we grapple with contemporary political problems economic anxieties and social fears The volume addresses the development of the narrative methods and generic conventions of dystopian fiction as a mode of socio political critique across the first half of the twentieth century It examines how a series of texts from an age of political extremes contributed to political discourse and rhetoric both in its contemporary setting and in the terms in which we increasingly cast our cultural anxieties Focusing on interactions between temporality spatiality and narrative the analysis unpicks how the dystopian interacts with social and political events debates and ideas Stock evaluates modern dystopian fiction as a historically responsive mode of political literature He argues that amid the terrors and upheavals of the first half of the twentieth century dystopian fiction provided a unique space for writers to engage with historical and contemporary political thought in a mode that had popular cultural appeal Combining literary analysis informed by critical theory and the history of political thought with archival based historical research this volume works to shed new light on the intersection of popular culture and world politics It will be of interest to students and scholars in literary studies cultural and intellectual history politics and
