Teaching Children Mathematics, 1999

Multilingual Education Yearbook 2021 Anthony A. Essien, Audrey Msimanga, 2021-05-04 This edited book attempts to foreground how challenges and complexities between policy and practice intertwine in the teaching and learning of the STEM subjects in multilingual settings and how they policy and practice impact on educational processes developments and outcomes The unique feature of this book thus lies in its combination of not just language issues in the teaching and learning of the STEM subjects but also in how these issues relate to policy and practice in multilingual contexts and how STEM research and practice may inform and shape language policies and their implementation in multilingual contexts This book is of interest to stakeholders involved in STEM education such as researchers undergraduate and graduate students tertiary level teachers teacher educators curriculum developers as well as other professionals with responsibilities in STEM education subjects The book is written in a way that is accessible to a wide range of backgrounds including those who are in language education

The Cambridge Handbook of Instructional Feedback Anastasiya A. Lipnevich, Jeffrey K. Smith, 2018-11-15 This book brings together leading scholars from around the world to provide their most influential thinking on instructional feedback The chapters range from academic in depth reviews of the research on instructional feedback to a case study on how feedback altered the life course of one author Furthermore it features critical subject areas including mathematics science music and even animal training and focuses on working at various developmental levels of learners The affective non cognitive aspects of feedback are also targeted such as how learners react emotionally to receiving feedback The exploration of the theoretical underpinnings of how feedback changes the course of

instruction leads to practical advice on how to give such feedback effectively in a variety of diverse contexts Anyone interested in researching instructional feedback or providing it in their class or course will discover why when and where instructional feedback is effective and how best to provide it First Class Ada J. Hand, Patricia Monighan-Nourrot, 1999

Focusing on the argument that early childhood education plays a crucial role in children's future success this guide provides information to educators about development based education that leads to active and productive learning for children ages 4 through 6 The guide provides examples for planning and organizing classroom environments scheduling the day's activities guiding interactions between children and adults and planning challenging curriculum and assessment activities Chapter one Guiding Principles for Quality Early Primary Programs focuses on models of child development and explanations of development based education Chapter two Planning Environments for Early Primary Programs addresses the importance of environment and physical space in meeting children's needs Chapter three Scheduling the Day in the Early Primary Program addresses the need to balance classroom activities in the daily schedule while chapter four Planning Classroom Instruction and Management focuses on the goals of quality learning and managing inevitable issues that arise in the classrooms of young children Chapter five Applying Child Development Principles to Curriculum addresses specific areas of study and how they fit into the education of young children Chapter six Planning an Integrated Early Primary Program addresses incorporation and integration of diversity special services and teaching strategies into the program The guide's four appendices address specific issues of reading writing assessment and working with English language learners Contains approximately 350 references SD Educators' Work Integrated Learning Experiences Iman C. Chahine, Lalini Reddy, 2024-09-17 This edited volume explores the power of educators work integrated learning experiences as transformative narratives transcending classroom boundaries Through critical reflection and storytelling teachers share their personal journeys across diverse cultural contexts offering fine grained descriptions of their growth and development Drawing on the belief that storytelling serves as a meeting ground for culture cognition and emotions educators narrate their encounters and immerse readers in global realms This book celebrates the immersion and excursion stories that shape educators lived experiences and personal histories illuminating how this knowledge can inspire highly impactful classroom practices for all students This volume is intended for in service and pre service educators teacher educators school administrators as well as undergraduate and graduate students in Social Sciences and Humanities Its primary goal is to delve into educators stories as they engage in work integrated learning programs across diverse global local contexts Applying Linguistics in the Classroom Aria Razfar, Joseph C. Rumenapp, 2013-07-24 Making linguistics accessible and relevant to all teachers this text looks at language issues in the classroom through an applied sociocultural perspective focused on how language functions in society and in schools how it is used for what purposes and how teachers can understand their students language practices While touching on the key structural aspects of language phonetics phonology morphology and

syntax it does not simply give an overview but rather provides a way to study and talk about language Each chapter includes practical steps and suggests tools for applying different kinds of linguistic knowledge in classrooms The activities and exercises are adaptable to elementary or high school settings Many examples focus on the intersection of math science and language Teacher case studies show how real teachers have used these concepts to inform teaching practices Given the increasing use of multimedia resources in today s schools multiple mediums are integrated to engage educators in learning about language The Companion Website provides a multitude of relevant resources that illustrate the diversity of language functions and debates about language in society *Research for Educational Change* Jill Adler,Anna Sfard,2016-06-17

Research for Educational Change presents ways in which educational research can fulfil its commitments to educational practice Focussing its discussion within the context of mathematics education it argues that while research generated insights can have beneficial effects on learning and teaching the question of how these effects are to be generated and sustained is far from evident The question of how to turn research into educational improvement is discussed here in the context of learning and teaching hindered by poverty and social injustice In the first part of the book four teams of researchers use different methodologies while analysing the same corpus of data collected in a South African mathematics classroom In the second part each of these teams makes a specific proposal about what can be done and how so that its research generated insights have a tangible beneficial impact on what is happening in mathematical classrooms Combining two discourses that of researchers speaking to one another and that of researchers communicating their insights to those responsible for educational practice the book deals with the perennial question of communication between those who study educational processes and those who are directly responsible for teacher education educational research and classroom practices This book will be key reading for postgraduates researchers and academics in education and particularly in the areas of mathematics education education research teacher education and classroom practice It will also appeal to teacher educators practitioners and undergraduate students interested in educational research **Everyday Mathematics** ,2002

A Cultural-Historical Approach Towards Pedagogical Transitions Joanne Hardman,2023-01-12 This book investigates pedagogical change across curricula and political transitions in the South African context from 1994 to today Tracing pedagogical transitions from post apartheid to the demands of the 21st century the book seeks to develop a novel approach to pedagogy that can meet the needs of students today Adopting a cultural historical lens Hardman analyses the contradictions that arise due to transitions in the curriculum and describes the current state of teaching in primary schools in South Africa by focusing on how teachers teach scientific concepts She goes on to examine the transitions from children s indigenous science maths understanding to school science maths understanding developing a pedagogy that can transform the learning of mathematics and science in developing contexts Building on theories from Vygotsky Davydov Feuerstein Freire Bruner and Hedegaard Hardman develops a new and inclusive decolonial pedagogical approach that can meet the
