The Economist: Successful Strategy Execution Michel Syrett, 2012-04-05. Strategy to performance gaps foster a culture of underperformance. Unrealistic plans create the expectation throughout the organisation that plans simply will not be fulfilled. This book shows how to overcome such failings and implement strategy effectively. Common failings include: Companies rarely track their performance against long-term plans; less than 15% of companies make it a regular practice to go back and compare the business results with the performance forecast for each business unit in its prior years; strategic results rarely meet projections when companies do track performance; it rarely matches the prior years' projection. The consequence is year after year of underperformance relative to the original plan. A lot of value is lost in translation: a combination of poor communications, misapplied resources, limited accountability, and lack of information creates an in-built strategy to performance gap.

Nutrition with Navigate Advantage Access Dr. Paul Insel, Paul M. Insel, Don Ross, Kimberley McMahon, Melissa Bernstein, 2022-02. Given the vast amount of research focused on food and nutrition, it can prove daunting for introductory nutrition instructors to present their students with the latest scientific content. Insel's *Nutrition* presents the latest nutrition research in an accessible format, supplemented by a behavior change approach that encourages active student engagement.
